Technical Note: Restriction of Characters

Because of problems created in our applications by special characters such as tildes, umlauts, etc., CEPI has restricted the characters accepted by its applications to the following ASCII decimal codes (see www.asciitable.com for a list of characters).

ASCII Codes
10 (line feed)
13 (carriage return)
26
32-126

In the Code/format section of each field, "A" represents an alpha entry, "B" represents blank, "C" represents character, and "N" represents a numerical digit. However in date fields (MM/DD/CCYY) "MM" represents the two digit month, "DD" represents the numeric day, "CC" refers to the century, and "YY" represents the year.

Graduation/Dropout Report and Field 23: Exit Status

As one of the uses of SRSD data is to determine graduation and dropout rates for Michigan high schools, it is important that the data reported are accurate reflections of each student's current status. Data inaccuracies may result in graduation and dropout rates that are spurious. After careful analysis, the Center for Educational Performance and Information (CEPI) has isolated the most prevalent data quality issues affecting the calculation of graduation and dropout rates. These seem to be associated with the errors in the fields listed below. It is therefore important that districts pay close attention to the accuracy of these fields, ensuring that they are in accord with the definitions that follow:

Field 20: Date of Enrollment
> The date of enrollment by definition is the date the student originally enrolled in the district. However, for students who exit and re-enter a district, it is the most recent enrollment date. The date is used to identify new students who transfer into the district. For purposes of the graduation and dropout calculations, the date of enrollment is a key indicator for identifying new students. If a student's enrollment date (Field 20) is after the previous submission's count date (Field 123: Date of Count), then the student is considered to be new to the district. If a student has left the district and then returned, use the most recent enrollment date.

Field 23: District Exit Status
> The district exit status is used to track student movement in or out of the district. This is used to identify graduates, dropouts and transfers.

Field 24: Date Exited
> The date exited is used to identify the timeframe in which student movement in or out of the district takes place.

Field 29: Program Eligibility/Participation I
> The Program Eligibility/Participation field is used to identify adult education students**.** These students are omitted from graduation and dropout calculations.

Field 124: UIC
> Ensure that the same UIC is being used for the same student over time. If a student is discovered to have more than one UIC, these UICs should be linked. Please consult Appendix A of the SRSD/UIC User's Guide for linking instructions.

Fatal errors occur when the field is blank or contains an invalid number.

Message: Operating ISD/ESA number is blank or is not a valid ISD/ESA number. Check the School Code Master (http://cepi.state.mi.us/scm) for the correct number.

Warning (none)

Definition: These codes are the state-assigned ISD/ESA numbers. Enter into the field the code of the ISD/ESA that has the operating district or program the student is attending. If the student is attending an ISD/ESA outside of the resident ISD/ESA, use the code for the operating ISD/ESA in which the program the student is attending is located.

Common entry errors: Wrong operating district codes in this field.

Programming edits: When the county code is out of range or blank, a *fatal error* is reported. Note: Single-digit numbers must have leading zeros.

Fatal errors occur when the field is blank or contains an invalid number.

Message: County Code number is blank or is not a valid number. Please check the School Code Master (http://cepi.state.mi.us/scm) for the correct number.

Definition: Enter the county code in which the administrative or central office of the district in Field 3: Operating District Number is physically located. For public school academies, report the county code in which the PSA building is physically located.

Field 3: Operating District Number

Submission cycle:	Fall, spring and end of year
Field use:	School Aid Act, MCL 388.1606(4), 388.1606a, 388.1606b, 388.1617b, 388.1619, 388:1625, 388.1701, 388:1705, 388.1705c, 388.1706, 388.1709, 388.1763a; NCLB, 20 USC 6311

Field specification:	Five-character, right-justified, zero fill, leading zero
Record position/type:	005-009, integer
Code/format:	Official School Code Master (NNNNN)
Dependencies with other fields:	Field 1: Operating Intermediate School District/Educational Service Agency Number

Programming edits: When the local educational agency or intermediate school district code is invalid or blank, a *fatal error* is reported. District numbers are five characters and should contain leading zeros where appropriate. The numbers entered in Field 1: ISD and Field 3 must be a valid combination within the School Code Master.

Message: Operating District number is blank or is not a valid district number. Check the School Code Master (http://cepi.state.mi.us/scm) for the correct number. Note: Four-digit numbers must have leading zeros.

Warning (none)

Definition: This is the state-assigned, five-digit code for the district submitting the student data. It is the district to which any applicable funds (state or federal) will be sent. All students for whom the district receives any state or federal funds should be reported.

Every student record for a single district should have the same operating district number. The operating district may, however, differ from the number in Field 4: Resident LEA Number.

The School Code Master can be found at: http://cepi.state.mi.us/scm.

Common entry errors: Wrong LEA or ISD number; not in the official School Code Master.

Field 4: Resident LEA Number

Submission cycle: Fall, spring and end of year

Field use: School Aid Act, MCL 388.1606(4), 388.1606a, 388.1606b, 388.1617b, 388.1619, 388:1625, 388.1701, 388:1705, 388.1705c, 388.1706, 388.1709, 388.1763a; NCLB, 20 USC 6311

State of Michigan office contact: DIT Client Service Center, 517-335-0505 or help-desk@mi.gov

Field specification: Five-character, right-justified, zero fill, leading zero

Record position/type: 010-014, integer

Code/format: Official School Code Master (NNNNN)

Dependencies with other fields: If Field 5: School or Facility type is a Public School Academy (PSA), then the entry in Field 4 cannot equal that in Field 3: Operating District Number. Field 125: Program Eligibility/Participation II (see programming edits below).

Programming edits: The resident LEA number must **not** equal the operating district number for PSA students. Field 4: Resident LEA Number may be left blank when the third position of Field 125 contains "1" (out-of-state student). District numbers are five characters and should contain leading zeros where appropriate.

Fatal errors occur when the field is blank and the third position of Field 125: Program Eligibility/Participation II does not contain a "1" (out-of-state student) or this field contains an invalid district number. For PSAs, this field must contain an actual LEA number. It cannot contain: "00000," an ISD number, a PSA number, nor can it contain the same number as Field 3: Operating District Number.

Message: Resident LEA number is blank or is not a valid number. Check the School Code Master (http://cepi.state.mi.us/scm) for the correct number. Also, the resident LEA number must not equal the operating district number for PSA students.

Definition: This is the state-assigned, five-digit code for the district in which the student resides. This number may differ from the operating district if a student is enrolled in multiple districts (with total full-time equivalency (FTE) less than or equal to "1.00"). The two numbers may also differ if a student takes part in schools of choice, charter schools, or certain other programs.

For public school academies (PSAs), the resident local education agency (LEA) number is the five-digit code of the public school district in which the student resides. For instance, if a PSA student lives within the boundaries of the Detroit Public Schools, then the resident LEA number is Detroit's five-digit code. In the case of juvenile detention facilities operated by an ISD, the resident LEA number is the district in which the facility is located.

The School Code Master can be found at: http://cepi.state.mi.us/scm.

Common entry errors: Wrong LEA number.

Field 5: School or Facility

Submission cycle:	Fall, spring and end of year
Field use:	School Aid Act, MCL 388.1606(4), 388.1606a, 388.1606b, 388.1617b, 388.1619, 388:1625, 388.1701, 388:1705, 388.1705c, 388.1706, 388.1709, 388.1763a; NCLB, 20 USC 6311
State of Michigan office contact:	DIT Client Service Center, 517-335-0505 or help-desk@mi.gov
Field specification:	Five-character, right-justified, zero fill, leading zero
Record position/type:	015-019, integer
Code/format:	Official School Code Master (NNNNN)
Dependencies with other fields:	Field 3: Operating District Number

Programming edits: When the school code is blank or not in the official School Code Master, a *fatal error* is reported. Within the School Code Master, the school code must be nested within the operating district number (Field 3: Operating District Number) unless it is a non-public school. School numbers are five characters and should contain leading zeros where appropriate.

Any non-public school code number is a legitimate number for any ISD or LEA/PSA. Further, ISDs may report the school code for buildings in any of their constituent districts.

No FTE may be claimed for buildings reported as closed as of the most recent count date.

Michigan School for the Blind (02534) or School for the Deaf (02548) may be reported by any ISD or district.

Fatal errors occur when the School Code Master number is blank, or if the School Code Master number is not an official number for the operating district.

Message: The School Code Master number is either blank or is not an official number for the operating district. Please check the School Code Master (http://cepi.state.mi.us/scm) for the correct number.

Warning (none)

Definition: These codes are the state-assigned numbers in the official School Code Master. *This field is the primary key (i.e., the relational link) to all five core data sets in the MEIS data warehouse.* Send questions or comments regarding this field to help-desk@mi.gov.

Schools: For the purposes of the School Code Master, a school is a logical unit (not necessarily a physical building) that generally can be defined by eight characteristics:
- Administrators. A school has one or more administrators or directors, usually called a principal(s) who reports to a district-level superintendent or assistant superintendent.

- Teachers. A school has one or more persons certified to provide Kindergarten through 12th grade (K–12) instruction.
- Students. A school has one or more students in grades K–12.
- Curriculum. Instruction is based on a systematic framework or approach according to grade level and content. A school includes a curriculum for one or more grades, usually from kindergarten through twelfth grade. In some cases, schools include specialized curricula for targeted populations of students.
- Hours of instruction. A school satisfies the minimum number of days and clock hours of instruction as required by law.
- Compliance with Michigan Compiled Laws. The administrator of a school is responsible for ensuring the school's compliance with Michigan Compiled Laws. A school complies with or satisfies the regulations and policies, educational and otherwise, of the state of Michigan. It is the school that takes responsibility for implementing federal and state laws as well as local school board policy.
- Membership. A school submits the appropriate data to the central office administration for calculation and submission of pupil membership for State School Aid.
- Assessment. A school administers the Michigan Educational Assessment Program (MEAP) or an alternate assessment at benchmarked grades.

Programs: Programs are different from schools. The following are generally true about a program:
- The primary purpose is education.
- The administrator, supervisor, coordinator, or director reports to a principal or another administrator, usually not to the district superintendent.
- Teachers may have special endorsements beyond those normally required for K–12 education.
- Students are referred by another public agency/school and are expected to enter or return to general education.
- Students are a targeted or special population, expected to remain for a limited duration, and attend on a part-time basis.
- The curriculum may be modified to cover only a selected portion of the standard K–12 curriculum based on the targeted population.
- The location does not administer the MEAP at benchmarked grades.
- The location does not offer a general education diploma (if 9–12).
- The location does not receive school accreditation.

When programs are located in a school, they use the same code as the school. At times, programs may be located in ancillary facilities. For example, preschool programs may be in a previously closed elementary school, an automotive program in a bus compound, or an alternative education program in the wing of a district detention center.

Ancillary Facilities: There are many ancillary facilities that serve a variety of purposes in districts. Ancillary facilities may house instructional programs (e.g., daycare programs in hospitals, alternative education programs in a community center) or they may be non-instructional facilities (e.g., field houses, bus garages, etc.). Ancillary facilities may receive a code.

Facilities called schools are the physical settings where instruction occurs. The physical and administrative boundaries of a school need not be identical. For example, multiple schools may be located in one facility, such as when both elementary and secondary grade levels are located in the same facility. In this example, if administered separately, elementary and secondary levels would be considered separate schools (e.g., K–8, 9–12), each having its own unique School Code Master (SCM) number. When both elementary and secondary levels are administered as a single unit (e.g., K–12), collectively they represent one school and have one SCM number. It is possible that a physical facility itself may not be one building but a cluster of structures connected together with plumbing, sanitary, heating, ventilation, mechanical, electrical, communication and technology systems, or built-in equipment.

Field 6: Student's Last Name

Submission cycle:	Fall, spring and end of year
Field use:	NCLB, 20 USC 6311
State of Michigan office contact:	DIT Client Service Center, 517-335-0505 or help-desk@mi.gov
Field specification:	25-character, left-justified
Record position/type:	020-044, alpha
Code/format:	Student's last/surname (Smithbbbbbbbbbbbbbbbbbbbb)

If the student's last name is longer than 25 letters, place the first 25 letters of the student's last name in this field and truncate the remaining characters. If the student's last name is less than 25 letters, place the entire last name in this field padded with blanks.

There should be one space between suffixes (Jr., III, etc.) and the last name. No commas should appear between the last name and the suffix. Abbreviated suffixes should be used (e.g., "Jr." rather than "Junior") and should be followed by a period.

Dependencies with other fields:	None

Programming edits: If this field is left blank, a *fatal error* will be reported.

Fatal errors occur when the field is blank or the student's last name contains a non-Roman alphabetical or numeric (0-9) character. Note: Apostrophe, dash, period, comma, and space are accepted. Underscores are not accepted.

Message: Student's last name contains a character that is outside acceptable parameters. Please verify that the name is correctly spelled.

Warning (none)

Definition: Always record the student's name as it appears on a birth certificate or legal document presented at the time of enrollment.

Common entry errors: Student's last name is spelled incorrectly or differently from the previous data submission.

Field 7: Student's First Name

Submission cycle:	Fall, spring and end of year
Field use:	NCLB, 20 USC 6311
State of Michigan office contact:	DIT Client Service Center, 517-335-0505 or help-desk@mi.gov

Code/format:	Student's first name (Jamesbbbbbbbbbb)

If the student's first name is longer than 15 letters, place the first 15 letters of the student's first name in this field and truncate the remaining characters. If the student's first name is less than 15 letters, place the entire first name in this field, padded with blanks.

Dependencies with other fields: None

Programming edits: If this field is left blank, a *fatal error* is reported.

Fatal errors occur when the field is blank or the student's first name contains a non-Roman alphabetical or numeric (0-9) character. Note: Apostrophe, dash, period, comma, and spaces are accepted. Underscores are not accepted.

Message: Student's first name contains a character that is outside acceptable parameters. Please verify that the name is correctly spelled.

Warning (none)

Programming edits: Only alphabetic characters (A-Z, a-z) or a space accepted.

A fatal error occurs if a character is other than alphabetic or a space.

Definition: If the student does not have a middle initial, fill this field with a space. Many students do not have middle initials; therefore, the field is frequently blank.

Field 9: Date of Birth

Submission cycle: Fall, spring and end of year

Field use: NCLB, 20 USC 6311; Individuals with Disabilities Education Act, 20 USC 1400 (PL 105-17 Sec. 618)

State of Michigan office contact: DIT Client Service Center, 517-335-0505 or help-desk@mi.gov

Field specification: 10-character

Record position/type: 061-070, integer with slashes

Code/format: Month, day, and year (MM/DD/CCYY)

All dates must appear in the following manner: DD must be a number between 01 and 31, and CCYY represents the year. For example, May 8, 1987 = 05/08/1987. Each MM must be one of the following:

01	January	07	July
02	February	08	August
03	March	09	September
04	April	10	October
05	May	11	November
06	June	12	December

Dependencies with other fields: During the error check process, this field may be used to determine student's age eligibility for various programs.

Programming edits: If the birth date is blank, out of range, or not a valid date, a *fatal error* is reported.

Fatal errors occur when the field is left blank, contains an invalid date (e.g., 14/04/2001, 04/38/1957), contains a future date, or contains invalid date characters (e.g., letters instead of numbers). This date must be within the last 100 years.

Message: Date of birth is blank, out of range, or not a valid date.

Warning (none)

Definition: The date of birth is the date as it appears on a birth certificate or other legal document presented at the time of enrollment.

Common entry errors: The entry of the current year instead of the birth year.

Field 10: Reserved Field

Submission cycle: Fall, spring and end of year

Field use: Reserved

State of Michigan office contact: N/A

Field specification: 10-character

Record position/type: 071-080

Code/format: Pad with blanks

Dependencies with other fields: None

Definition: This field is reserved for future use.

Programming edits:

No fatal error.

Warning: A warning is issued when the field is not blank.

Warning message: This field contains a value when we are expecting blanks. Please verify that one or more characters have not shifted within the record.

Field 11: Gender Code

Submission cycle: Fall, spring and end of year

Field use: NCLB, 20 USC 6311; Individuals with Disabilities Education Act, 20 USC 1400 (PL 105-17 Sec. 618)

State of Michigan office contact: DIT Client Service Center, 517-335-0505 or help-desk@mi.gov

Field specification: One-character

Record position/type: 081, alpha

Code/format: This is a one-position field (A). Not case sensitive.

          M   Male
          F   Female

Dependencies with other fields: None

Programming edits: If the code is out of range or blank, a *fatal error* is reported.

Fatal errors occur when this field is left blank, or anything other than "M", "m", "F", or "f", is encountered.

Message: Gender is blank or contains an invalid value.

Warning (none)

Definition: Indicate if the student is male or female. Use code M when the student is male. Use code F when the student is female.

Common entry errors: The field is left blank.

Field 12: City or Place of Birth

Submission cycle: Fall, spring and end of year

Field use: Refugee Children School Impact Grant; Immigration and Nationality Act, 8 USC 1101, 8 USC 1401

State of Michigan office contact: DIT Client Service Center, 517-335-0505 or help-desk@mi.gov

Field specification: 20-character, left-justified

Record position/type: 082-101, alphanumeric

Code/format: Student's place of birth on birth certificate (Traverse Citybbbbbbbb)

If the student's place of birth is longer than 20 letters, place the first 20 letters of the student's place of birth in this field and truncate the remaining characters. If the student's place of birth is less than 20 letters, place the entire name in this field padded with blanks.

Dependencies with other fields: None

Programming edits: If this field is left blank, a *fatal error* will be reported.

Message: City or place of birth is missing.

Warning (none)

Definition: Enter the city or place of birth just as it appears on the student's birth certificate. When the city of birth cannot be verified, then the county or township of birth is to be used; when the city, county, or township is not verifiable, then the country of birth is to be used. In many cases the city of birth will be the city where the hospital is located. If the student was adopted, the city or place of adoption is acceptable. For foreign-born students, please use the country only. For example, "France" (correct) not "Paris, France" (incorrect). Consult the ethnologue found in the LEP section of this manual.

The sequence of documentation used to verify place of birth is as follows:
    Birth certificate (certified copy)
    Birth certificate (uncertified copy)
    Baptismal certificate (indicating place of birth)
    Court record
    Government record (passport, military, immigration)
    Doctor or hospital record with sworn statement
    Life insurance policy
    Family record

Common entry errors: City or place of birth is spelled incorrectly. When submitting the city, do not submit both city and place (i.e., state and country). For example, submit "Traverse City" (correct) not "Traverse City, Michigan" (incorrect); "Muskegon" (correct) not "Muskegon, MI" (incorrect). As mentioned above, for foreign born-students, please use the country only. For example, "France" (correct) not "Paris, France" (incorrect). Consult the ethnologue found in the LEP section of this manual.

Field 13: Street Address

Code/format: Student's Street Address

Dependencies with other fields: Field 34: Homeless

Programming edits: Error check to ensure that the student has a street address, unless the student is reported in Field 34: Homeless.

Fatal errors occur when this field is blank, unless Field 34: Homeless has a value.

Message: Student address is missing.

Definition: This code is the street address where the student lives at the time of reporting or the student's last known street address of residence. The following U.S. postal abbreviations are from the U.S. Zip Code Manual and *may* be used as street designators.

Record position/type:	122-141, alpha
Code/format:	Student's City or Town (AAAAAAAAAAAAAAAAAAAA)
Dependencies with other fields:	Field 34: Homeless

Programming edits: Error check to ensure that the student has a city or town address, unless the student is reported in Field 34: Homeless.

Fatal errors occur when this field is blank, unless Field 34: Homeless has a value.

Message: Student address is missing.

Definition: Indicate the name of the city or town where the student lives at the time of reporting or the student's last known city or town of residence.

Field 15: Zip Code

Submission cycle: Fall, spring and end of year

Field use: NCLB, 20 USC 6311

State of Michigan office contact: DIT Client Service Center, 517-335-0505 or <u>help-desk@mi.gov</u>

Field specification: 10-character (numerals only), with dash, left-justified

Record position/type: 142-151, integer

Code/format: Student's Zip Code (NNNNN-NNNN)

Dependencies with other fields: Field 34: Homeless

Programming edits: Error check to ensure that the student has a zip code, unless the student is reported in Field 34: Homeless.

Fatal errors occur when this field is blank, unless Field 34: Homeless has a value. Numerals will only be accepted , a fatal error occurs otherwise. The first five (5) positions of this field must be five (5) digits. A fatal error occurs otherwise. If there are more than five (5) numbers, then the sixth (6th) position must be a "-". A fatal error occurs otherwise.

Message: Student address is missing or in error.

Definition: This is the zip code of the location where the student lives at the time of reporting or the last known code of residence. If there is no four-digit code, pad with five blanks (NNNNNbbbbb).

Field 16: Reserved Field

Submission cycle: Fall, spring and end of year

Field use: Reserved

State of Michigan office contact: N/A

Field specification: One-character

Record position/type: 152

Code/format: Pad with blanks

Dependencies with other fields: None

Definition: This field is reserved for future use.

Programming edits:

No fatal error.

Warning: A warning is issued when the field is not blank.

Warning message: This field contains a value when we are expecting blanks. Please verify that one or more characters have not shifted within the record.

Field 17: Student ID Number (Membership)

Submission cycle: Fall, spring and end of year

Field use: Used for deduplication of records

State of Michigan office contact: DIT Client Service Center, 517-335-0505 or help-desk@mi.gov

Field specification: 20-character, blanks accepted, left-justified

Record position/type: 153-172, alphanumeric

Code/format: District student ID number

Dependencies with other fields: None

Programming edits: None at this time.

No fatal error.

Definition: The student's Social Security number **or** the local district's student ID number may be placed in this field (with leading blanks). This is different from the UIC in Field 124: Unique Identification Code (generated by the Center for Educational Performance and Information (CEPI) as the student identifier.

Field 18: FTE in General Education (Membership)

Submission cycle: Fall and spring

Field use: School Aid Act, MCL 388.1606(4), 388.1606a, 388.1606b, 388.1617b, 388.1619, 388:1625, 388.1701, 388:1705, 388.1705c, 388.1706, 388.1709, 388.1763a; NCLB, 20 USC 6311

State of Michigan office contact: MDE/State Aid and School Finance/School Aid FTE, JoEllen Wonsey, 517-373-3352 or WonseyJ@michigan.gov

Field specification: Four-character, decimal, blanks not accepted

Record position/type: 173-176, decimal

Code/format: 0.00 to 1.00 (N.NN) with a default code

Dependencies with other fields: See programming edits below.

Programming edits: If the field is left blank, or if the number entered is less than 0.00 or greater than 1.00, a *fatal error* is reported. Error check against Field 9: Date of Birth to ensure that 0.00 FTE is being claimed when the student is less than 5 years of age on or before December 1, or 20 or more years of age on September 1; or if the student is in special education (Field 29: Program Eligibility/Participation I code "010000000") and over 26 years of age as of September 1.

Fatal errors occur when this field is left blank, or if the number entered is greater than 1.00 or less than 0.00. Fatal errors occur when more than 0.00 FTE is being claimed when the student is less than 5 years of age on or before December 1, more than 20 years of age on September 1, or if the student is in special education and more than 26 years of age as of September 1. A fatal error will occur if the FTE in Field 18 is greater than 0.00 and the student is reported as participating in adult education in Field 29 (eighth position).

If an ISD uses a code of "06", "09", "11", or "14" in Field 30: Student Residency and this field has greater than "0.00" FTE, a fatal error is reported.

Field 18 must be "0.00" when the student is in kindergarten (Field 19: Grade or Setting equals "00") and the student residency code (Field 30) is non-public (codes "04" or "08"). A fatal error occurs otherwise. General Education FTE cannot be claimed when Field 19 contains "14" (special education setting) or "20" (adult education setting).

Message: FTE in General Education is blank, less than 0.00 or greater than 1.00, or should not be claimed on this student. Note: Blanks are not accepted for this field. The default is "0.00".

FTE cannot be claimed if the school (Field 5: School or Facility) was closed on or before the count date (Field 123: Date of Count).

FTE cannot be claimed when the date in Field 20: Enrollment Date is later than that in Field 123: Date of Count.

If this student has zero attendance and yet is being claimed for FTE under the 10/30 day rule, then Field 125: Program Eligibility/Participation II must contain a "1" in the sixth position. A fatal error occurs otherwise. That is, if the first three positions of Field 21: Attendance are "000", then Field 125: Program Eligibility/Participation II must contain a "1" in the sixth position in order for the FTE in this field to be greater than 0.00.

Warning (none)

Definition: Refer to Section 6 of the current State School Aid Act and the Michigan Department of Education's Pupil Accounting Manual for full time equivalency (FTE) instructions. Enter the FTE in this field. A student's FTE may range from "0.00" to "1.00" (both tenths or hundredths are allowed as long as the district is consistent in the use of either one).

Common entry errors: The field is left blank.

14   Special Education
20   Adult Education
30   Early Childhood/Early On®

Dependencies with other fields: Field 52: Early Childhood
Field 54: Eligibility Code

Programming edits:

If the code is out-of-range, a *fatal error* is reported. If code "30" is submitted, ensure that at least one of the following contain a valid code:

     Field 52: Early Childhood Enrollment
     Field 54: Eligibility Code
     Field 42: Program Service Code
     Field 43: Support Services

Fatal errors occur when this field is blank.

Fatal errors occur when code "30" (Early Childhood/Early On®) is used and all of the following four fields are blank, or contain invalid or out of range numbers: Field 52: Early Childhood Enrollment; Field 54: Eligibility Code; Field 42: Program Service Code; Field 43: Support Services.

Possible edits at a district level might include comparing grade levels to a valid age. For example, a K-12 student could not be older than 26 (a fatal error); a typical first grader is between ages 5 and 7 (out-of-range is a warning).

Fatal errors occur if the student's grade is code "14" (Special Education) or code "20" (Adult Education), and Field 18: FTE in General Education is greater than 0.00.

Fatal errors occur when this field contains "30" or is blank, and Field 18: FTE in General Education is greater than 0.00.

A fatal error occurs if Field 19: Grade or Setting equals "13" and Field 125: Program Eligibility/Participation II, first position, does not contain a "1".

Definition: Identify the grade level or the educational setting in which the student is enrolled. As a general rule, students enrolled in K-12 general education are within two years of their chronological age minus five (([chronological age – 5] +/– 2) = grade level). If the student is in a self-contained special educational setting, meaning that special education services are received in the context of an otherwise K-12, general educational setting (see definition below for special educational setting), use the age-appropriate grade placement. For students in a multi-age setting, use the appropriate grade level. For students beyond age-appropriate grade levels, use the correct educational setting. Do not use code "13" for alternative education unless the setting is also ungraded.

For alternative education, use Field 19: Grade or Setting to report the appropriate grade level for students currently participating in alternative education and report the alternative education status in Field 125: Program Eligibility/Participation II. Use code "13" in Field 19: Grade or Setting only if the alternative educational setting in which the student is currently participating is ungraded.

Grade Level:

00   Kindergarten. Any one- or two-year program prior to first grade that meets the membership eligibility requirements of enrolling students who are 5 years of age on or before December 1 and is a 549-hour program. If the setting is a developmental/retention kindergarten (DK) for which FTE is being claimed, in addition to being reported in Field 19: Grade or Setting, the student should also be reported in Field 125: Program Eligibility/Participation II, second position. [NOTE: Pre-kindergarten early childhood programs do not include DK. Early childhood programs are reported in Field 52: Early Childhood Enrollment].

01-12   Grade 1 through grade 12.

Educational Setting:

13   Alternative education. This is a public-school, alternative educational setting as defined by the Michigan Department of Education. In general, alternative education:
- Addresses needs of students that typically cannot be met in general education;
- Provides non-traditional curriculum, often consistent with a student's learning style;

- Functions as an adjunct to the general educational curriculum; and/or
- Falls outside of the categories of regular, special, career and technical, or vocational education.

If Field 19: Grade or Setting contains "13", then Field 125: Program Eligibility/Participation II, first position, must also contain a "1".

See "MEAP and MI-Access Assessments for Ungraded Students" in the following section.

14   Special educational setting. A special program where the student might **not** be age-appropriately placed in a grade level. **Note:** If FTE for the student is being claimed in special education as well as general education, then this field must contain a grade level for the special education student (code "14" cannot be used).

20   Adult education. A full-time-equated participant enrolled and attending a Department-approved, adult basic-education program; an English-as-a-second-language program; a general-education, developmental test-preparation program; a job- or employment-related program; or a high school completion program; and who meets the eligibility requirements as defined in Section 107 of the State School Aid Act.

30   Early Childhood/Early On®. Code "30" is used to report children receiving early childhood or Early On® services from the district. This does not include developmental kindergarten (see definition under code "00" above).

Computed Grades For Students Reported in Ungraded Educational Settings

State Board of Education policy, the *No Child Left Behind Act of 2001*, and the *Individuals with Disabilities Education Act* require that state-level assessments be administered to ALL students in required content areas. District policy determines grade assignments for students. However, when the district identifies a student in an ungraded educational setting (grades "13" or "14" in Field 19), for certain purposes such as MEAP and MI-Access testing or for determining membership in a graduation cohort, the state will compute the student's grade level based on the following table.

Student Age* in Ungraded Programs	Computed Grade
9	3rd
10	4th
11	5th
12	6th
13	7th
14	8th
15	9th
16	10th
17	11th
18	12th

* Age is based on Field 9: Date of Birth in the SRSD and is computed as of December 1st of the current school year.

For questions related to MEAP test administration, please contact the Office of Educational Assessment and Accountability at 517-373-8393, or toll free at 877-560-8378.

Field 20: Date of Enrollment

Submission cycle: Fall, spring and end of year

Field use: School Aid Act, MCL 388.1606(4), 388.1606a, 388.1606b, 388.1617b, 388.1619, 388:1625, 388.1701, 388:1705, 388.1705c, 388.1706, 388.1709, 388.1763a; NCLB, 20 USC 6311

State of Michigan office contact: DIT Client Service Center, 517-335-0505 or help-desk@mi.gov

Field specification: 10-character

Record position/type: 179-188, integer with slashes

Code/format: Month, day and year (MM/DD/CCYY)

          All dates must appear in the following manner: DD must be a number between 01 and 31, and CCYY represents the year. For example, May 8, 1994 = 05/08/1994. Each MM must be one of the following:

01	January	07	July
02	February	08	August
03	March	09	September
04	April	10	October
05	May	11	November
06	June	12	December

Dependencies with other fields: Field 9: Date of Birth

Programming edits: If the enrolled date is out of range, blank, or not a real date, a *fatal error* is reported. The date of enrollment should precede or be the same as the date in Field 123: Date of Count if FTE is being claimed.

Fatal errors occur when the field is blank, contains an invalid date (e.g., 14/04/01 or 04/38/57), contains invalid date characters (e.g., letters instead of numbers), or the date in Field 20: Date of Enrollment is earlier than that in Field 9: Date of Birth.

Fatal errors occur when the date in this field is later than that in Field 123: Date of Count and the FTE in Field 18: FTE in General Education, Field 40: FTE in Section 52, or Field 41: FTE in Section 53, is greater than 0.00.

Note: the date of enrollment can be later than that in Field 38: Date of IEP/ Placement/Date of Implementation, Field 39b: Result of Initial IEP, or Field 55: Date of IFSP for Part C.

Message: Date of Enrollment is blank, out of range, or not a valid date.

Warning (none)

Definition: The month, day, and year of the first day the student enrolled in that district. If a student exits the district and then re-enrolls, the date of re-enrollment should be reported in this field.

The date in this field should not change if a student is merely changing buildings within the same district; for example, moving from elementary to junior high, or from junior high to high school.

Common entry errors: Reporting the current date in the field rather than the actual enrollment date. Reporting the start of the current school year rather than the actual enrollment date.

Field 21: Attendance

Submission cycle:	Fall, spring and end of year
Field use:	School Aid Act, MCL 388.1704a; Revised School Code, MCL380.1279, 380.1280, 380.1561; NCLB, 20 USC 6311
State of Michigan office contact:	DIT Client Service Center, 517-335-0505 or help-desk@mi.gov
Field specification:	Seven-character (with slash)
Record position/type:	189-195, integer with slash
Code/format:	Three numbers with a slash followed by three numbers (NNN/NNN). This field may be blank when not required.
Dependencies with other fields:	Field 18: General Education FTE; Field 40: FTE in Section 52; Field 41 FTE in Section 53

Programming edits: The three numbers before the slash cannot be greater than the three numbers after the slash. When an FTE greater than "0.00" is entered in any FTE field (Field 18: FTE in General Education, Field 40: FTE in Section 52, or Field 41: FTE in Section 53), this field must have a value (unless Field 125: Program Eligibility/Participation II has an entry in the sixth position). Actual or possible days attended cannot be a negative number.

Fatal errors occur if the three numbers before the slash are greater than the three numbers after the slash or when the values in Field 18: FTE in General Education, Field 40: FTE in Section 52, or Field 41: FTE in Section 53 are greater than 0.00 and Field 21: Attendance is blank (unless Field 125: Program Eligibility/Participation II has an entry in the sixth position). "Blank" refers to seven spaces or three spaces followed by a slash followed by three spaces. A fatal error will also occur when Field 18: FTE in General Education, Field 40: FTE in Section 52, or Field 41: FTE in Section 53 contains values greater than 0.00 and actual attendance equals "000" (unless Field 125: Program Eligibility/Participation II has an entry in the sixth position).

Attendance is not required for the following: adult education participants, Early Childhood, non-public students, juvenile detention, early childhood special education, Early On®, home-schooled students, and special education students served by a DCH facility.

Early childhood (those students reported in Field 52: Early Childhood Enrollment and as code "30" in Field 19: Grade or Setting) and adult education students will pass the error check with zero attendance by virtue of the fact that no general education or special education FTE is being claimed. Non-public students are those students reported as "04" or "08" in Field 30: Student Residency. Juvenile detention students are those reported as "09" or "12" in Field 30: Student Residency. Early childhood special education program students are those reported as code "191" or "270" in Field 42: Program Service Code or "11" in Field 36: Primary Disabiltiy. Early On® students are those reported in the third position of Field 29: Program Eligibility/Participation I. Home-schooled students are those reported as "15" in Field 30: Student Residency. Special education students served by a DCH facility are those reported as "13" in Field 30: Student Residency.

Warning (none)

Definition: The three characters before the slash represent the number of days the student actually attended. The three characters after the slash represent the total possible days in attendance from the first day of school, the date of new enrollment, or the beginning of a program (e.g., summer school). (See Field 20: Date of Enrollment for more information on date of enrollment.) For the EOY count day, use the last day of school, not including summer school. **This field does not address instructional days or clock hours.** For services that are not school-based (e.g., services provided in the home), report how many days out of the days available that the student received services.

For example, the end date for the fall SRSD data submission would be the official fall count date in September. For students who enrolled on the first day of school, the possible attendance days would then equal the number of days that students were expected/required to attend between the first day of school and the count date. Using this example, if a student exits the school between count dates, then the possible attendance days would then equal the number of days that students were expected/required to attend between the first day of school and the date that this student exited (Field 24: Date Exited). When a student enrolls after the first day of school, the days preceding the enrollment date are not counted in possible attendance. If a student exits and re-enrolls between count dates, then the total number of days enrolled would be the number of possible days.

Students in the same grades, but different buildings, may have different possible days of attendance. If a student transfers to a different school within the district during the school year, or the student is enrolled in two buildings within the same district, then attendance days should be combined across the different schools for reporting. (This means that attendance in either building would be considered as a day in attendance.) If a student is enrolled in two different districts, then the possible days for each district would equal the expected/required days for each district only.

Attendance for any part of the school day may be counted as a day in attendance. Participation in half-day kindergarten, special education for preprimary-aged students, or any other pupil program is to be reported as a day in attendance. In-school suspensions are considered days in attendance. Expulsions and out-of-school suspensions are considered absences.

For homebound students, each day that services were offered is a possible attendance day. Each day that services were received is an actual attendance day. For example, if the services were offered twice a week for a month, but the student missed two days, the attendance would be reported as "006/008".

This field may be blank when not required.

NOTE: The data populating this field for the end-of-year SRSD submission should be a cumulative count of the student's attendance for the entire academic school year, as of the last day of attendance.

Field 22: Racial/Ethnic Code

Submission cycle: Fall, spring and end of year

Field use: NCLB, 20 USC 6311; Individuals with Disabilities Education Act, 20 USC 1400 PL 105-17 Sec. 618(i)

State of Michigan office contact: DIT Client Service Center, 517-335-0505 or help-desk@mi.gov

Field specification: Six-character, blanks not accepted

Record position/type: 196-201, integer

Code/format: This is a unique six-position field using any combination of "0" through "6" in the proper position (NNNNNN). Because this is a multiple-occurrence field, the indicator of the code is located by position in the format. The primary racial/ethnic choice is represented with a "1" and the second choice is a "2", etc. For example, a person whose primary racial/ethnic choice is Asian American would receive a code of "010000". If the same person is also White, they would receive the code of "010020". In this example, a person who is primarily of the Hispanic ethnic group and is also of the Black and Asian races, could be coded "032001". If a person is of equal races such as an American Indian and Hispanic, they would be reported as "100001".

For more information on ethnic reporting, please go to the following Web site:
http://nces.ed.gov/programs/handbook/data/pdf/Appendices_A.pdf.

100000	American Indian or Alaska Native (first position)
010000	Asian American (second position)
001000	Black or African American (third position)
000100	Native Hawaiian or Other Pacific Islander (fourth position)
000010	White (fifth position)
000001	Hispanic or Latino (sixth position)

Dependencies with other fields: None

Programming edits: Error check to ensure that there is a six-digit code which is not out of range, and at least one of the six digits must be the number "1".

Fatal errors occur when the field is blank, or one or more numbers of the six-digit code is larger than six.

Message: One of the six-digit codes is either blank or invalid.

Warning (none)

Definition: First identify the racial group and then the ethnicity of the student (if Hispanic or Latino). A combination of the following codes with at least one primary and/or one or more secondary choices may be reported.

100000	*American Indian or Alaska Native*. A student having origins in any of the original peoples of North America and South America (including Central America), and who maintains tribal affiliation or community attachment.
010000	*Asian American*. A student having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian sub-continent including for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
001000	*Black or African American*. A student having origins in any of the black racial groups of Africa.
000100	*Native Hawaiian or Other Pacific Islander*. A student having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
000010	*White*. A student having origins in any of the original peoples of Europe, the Middle East, or North Africa.
000001	*Hispanic or Latino*. An indication that the individual traces his or her origin or descent to Mexico, Puerto Rico, Cuba, Central and South America, and other Spanish cultures, regardless of race.

Dependencies with other fields: Field 24: Exit Date

y

Programming edits: If the exit code is anything other than code "19" (continuing), a valid date must be submitted in Field 24: Date Exited. If the status is code "19", then Field 24: Date Exited ~~may~~ must be blank. A fatal error occurs if this field contains "10" (expelled) and Field 113: Date Expelled, is blank.

If this field contains "30", then Field 53: Early Childhood Exit/Completion Reason, or Field 58: Early On® Exit/Completion Reason, or Field 45: Special Education Exit/Completion Reason, must contain a valid code.

If the exit code is out of range, a *fatal error* is reported. Fatal errors occur when this field is blank or the exit code is out of range. A fatal error occurs if this field contains a single digit either preceded or followed by a blank.

If code "21" is reported, student must be age 25 ~~26~~ or older on September 1 of the current school year. A fatal error occurs otherwise.

NOTE: The data populating this field for the end-of-year SRSD submission should reflect the student's status as of the last day of the academic school year.

Warning (none)

Definition: Use only one code for the reason the student is no longer in the school district. If the student has transferred to another school within the same school district, the previous school should report an exit code of "19" and leave Field 24: Date Exited blank. This student should not appear in the previous school's subsequent submissions. If the student has been expelled but continues to receive services, report an exit code of "19" and complete fields 112-120. Use an exit code of "10" (in addition to completing fields 112-120) only for students who are expelled and no longer receive services from the school district.

01	Graduated from general education with a high school diploma. Used for a student who earned a high school diploma. Includes early graduates who earn a high school diploma. Also include the student with an IEP who met the same graduation requirements as the nondisabled student. Exclude any student who graduated by meeting only IEP requirements and did not receive a high school diploma.
02	Graduated from general education with a high school diploma and applied to a degree-granting college or university. Used for a student who graduated with a high school diploma and to the best of the district's knowledge, enrolled in a two- or four-year degree-granting college or university.
03	Graduated from an alternative program with a high school diploma. Used for graduates receiving a diploma from an alternative program in a regular high school or a separate building.
04	Graduated from general education with a high school diploma and applied to a non-degree-granting institution. Used for a student who graduated and, to the best of the district's knowledge, enrolled in a non-degree-granting institution (e.g., trade, technical, vocational, or business school).
05	Completed general education with an equivalency certificate (GED). Used for a student known to have passed the GED test and to be under 20 years of age.

06   Completed general education with other certificate. Used for a student who completed school with some other type of certificate, such as a certificate of attendance/completion, or a district competency test.

07   Dropped out of school. Used when a student, upon reaching age 16, stopped attending school, and no reason is given. For special education, the student left school before the age of 26 without completing his/her educational program.

08   Enrolled in another public school district. Used when a student moved to another public school district in Michigan and is known to be continuing in education. Movement to another district includes moving to state institutions, except when the student is incarcerated. (See code 13)

09   Moved out of state. Used when a student has moved out of state and is no longer attending a public or private school in Michigan. Used when students and their parents/guardians physically move outside the original district of residence to another state or country. This code should also be used when a foreign exchange student left midyear to return to his/her home country.

10   Permanently expelled from school district. Used when either a general education or a special education student has been permanently expelled from school by official board action. This does not include a special education student on long-term suspension or a student who is placed in an alternate educational setting. A student with this code requires further information located in the expulsion section (fields 112-120).

              Students who are expelled for less than the remainder of the current school year and continue to receive services should receive a code "19" (expected to continue) with a code in Field 120: Follow-up after Expulsion, of either "3" or "7".

This code is also used for non-public students who have been taking non-core classes from the district, who are no longer receiving services, and are continuing in their non-public setting.

16   Unknown. Used when the current status of the student is unknown. For reporting purposes, this student is considered a dropout, unless s/he can be located in another district.

17   Recovery program. Used when the student was placed in a recovery program, rehabilitative program, or under psychiatric care. If the student is still receiving services from the district (either homebound or hospitalized), the student should be reported as code "19" (continuing).

18   Adult education. Participant is no longer enrolled in an adult education program.

19   Expected to continue. Used when the student is expected to continue normal matriculation through the educational system in the same district.

20   Received special education certificate of completion or finished IEP requirements. Received a certificate of completion in lieu of a standard high school diploma. Student exited his/her educational program, that is, high school-equivalent program, by receiving a special education high school diploma, a modified high school diploma, a special education certificate of completion of high school or educational program or some similar document.

21   Special education reached maximum age. Student reached the maximum age for receipt of programs or services and is no longer eligible to attend school.

30   Child has left early childhood or Early On® program/<u>service</u> and will not be continuing in the district (NOTE: if the child has left his or her program and will subsequently be entering kindergarten in the district, report as "19", continuing).

Common entry errors: Field is left blank.

06	June	12	December

Dependencies with other fields: Field 23: Exit Date; Field 20: Date of Enrollment; Field 9: Date of Birth

Programming edits: If an exit date is not valid, a fatal error is reported. If codes "01" through "16" were used in Field 23: District Exit Status, a valid date must be entered. If code "19" is reported in Field 23: District Exit Status, Field 24 may be left blank. The exit date may be a future date, but only if codes "01" – "06" are reported in Field 23: Exit Status. The date exited cannot be sooner than that in Field 9: Date of Birth.

The following rule covers students who have exited and then re-enrolled in the district: the date in Field 24: Date Exited may be earlier than that in Field 20: Date of Enrollment only if Field 23: District Exit Status contains "19" (continuing).

Fatal errors occur when the field is blank and Field 23: District Exit Status contains a value other than "19", contains an invalid date (e.g., 14/04/2001, 04/38/1957), or contains invalid date characters (e.g., letters instead of numbers).

Message: the date exited is blank, out of range, or not a valid date.

Warning (none)

Definition: The month, day, and year of the first day <u>after</u> the date a student last attended school, graduated, or became known officially to have left the educational setting. Common entry errors: Placing a date in the exit field when the student is still enrolled in school.

NOTE: The data populating this field for the end-of-year SRSD submission should reflect the student's status as of the last day of the academic school year (e.g., if the student is graduating at the end of the academic school year, the date in this field would be the day after the last day of the academic school year).

State of Michigan office contact: DIT Client Service Center, 517-335-0505 or help-desk@mi.gov

Field specification: Nine-character field, blanks not accepted

Record position/type: 333-341, Boolean (integer)

Code/format: This is a unique nine-position field (NNNNNNNNN) with a default code of "0". According to student status, report either a "0" or "1" in the proper position. Because this is a multiple-occurrence field, the indicator of the code is located by position in the format. For example, a special education student would receive a code of "010000000". If the same student were a migrant student, the code would be "010000100". This allows for multiple occurrences.

Title I (first position)
Special Education (second position)
Early-On® (third position)
Reserved (fourth position)
Advanced and Accelerated (fifth position)
Limited English Proficient (sixth position)
Migrant Education (seventh position)
Adult Education (eighth position)
Section 504 (ninth position)

Dependencies with other fields: See following section: Relationship between Field 29: Program Eligibility/Participation I and Categorical Fields in the SRSD Error Check Program

Programming edits: Error check to ensure a valid code is in this field and is not out of range.

Fatal errors occur when this field is blank, or any of the nine-digit codes are out of range, or position four contains "1".

Message: The nine-digit code contains at least one blank or contains an invalid number.

Warning (none)

Definition: This field is used to identify what type of categorical program/service the student is eligible for and enrolled in.

Common entry errors: Leaving the character field blank when student data is contained in one of
the categorical program areas in this manual.

Relationship between Field 29: Program Eligibility/Participation I and Categorical Fields in the SRSD Error Check Program

Field 29: Program Eligibility/Participation I was originally introduced as a convenient means of
identifying those students participating in various categorical programs. For each categorical program,
Field 29: Program Eligibility/Participation I is complemented by various fields that report detailed
categorical information. The dependency between Field 29: Program Eligibility/Participation I and these
other more specific fields varies and is elaborated below.

FORWARD DEPENDENCY: This refers to a dependency in which Field 29: Program
Eligibility/Participation I "looks forward" to specific categorical fields. For example, if the second
position of Field 29 is triggered (i.e., contains a "1"), the Error Check Program (ECP) "looks forward" to
Field 36: Primary Disability and ensures that there is a valid value in that field. If there is not, ECP
reports a fatal error.

BACKWARD DEPENDENCY: This refers to a dependency in which specific categorical fields "look
backward" to Field 29. For example, if Field 54: Eligibility Code contains a valid value, ECP will "look
backward" to Field 29 to ensure that position three is triggered. If position three instead contains a "0",
ECP reports a fatal error.

FIELD 29 POSITION	PROGRAM	FORWARD DEPENDENCY	BACKWARD DEPENDENCY (all fatal errors)
1	TITLE I	none	Fields 91 & 92
2	SPEC. ED.	Field 36 (fatal)	Fields 36, 38 & 40
3	EARLY ON®	none	Field 54
4	(reserved)		
5	ADVANCED & ACCELERATED	Fields 69 & 70 (warning)	Fields 69 & 70
6	LEP	Field 71	Fields 71, 81 & 82
7	MIGRANT	Field 89 (fatal)	Fields 84 – 88
8	ADULT ED.	none	Fields 98 – 102

Field 30: Student Residency (Membership)

Submission cycle:	Fall, spring and end-of-year*

*End-of-year. For reporting purposes (e.g., graduation rates, program participation) new enrollees since the spring count date will be assumed to be public school students unless otherwise indicated in this field. New nonpublic students should be reported with the appropriate residency status.

Note: For all students reported in previous cycles, the last submitted residency code will be used for end of year. There is no need to re-verify their status.

Field use: School Aid Act, MCL 388.1606(4), 388.1606a, 388.1606b, 388.1617b, 388.1619, 388.1620(5), 388:1625, 388.1701, 388:1705, 388.1705c, 388.1706, 388.1709, 388.1763a

Dependencies with other fields: Field 18: General Education FTE; Field 40: Section 52; Field 41: Section 53; Field 3: Operating District

Programming edits: Check to ensure that the code is not out of range. Check to ensure that when code "04" or "08" is reported and Field 19: Grade or Setting is coded "00" (Kindergarten) that the FTE in Field 18: FTE in General Education is not greater than 0.00.

Fatal errors occur when this field is blank and FTE is being claimed in Field 18: FTE in General Education, Field 40: FTE in Section 52, or Field 41: FTE in Section 53; Field 30: Student Residency contains an invalid value; the number is out of range, or when FTE is being claimed for non-public kindergarten students. A fatal error occurs if this field contains a single digit either preceded or followed by a blank.

A code of "10" may only be reported when the operating district in Field 3: Operating District Number is a new Public School Academy (first year of operation) and the submission cycle is fall.

A code of "12" pertains to general education students being educated by the ISD and cannot be used when claiming FTE in Sections 52 or 53 (Field 40 or 41).

A code of "13" pertains to special education students being educated by the ISD and cannot be used when claiming general education FTE (Field 18) or FTE in Section 53 (Field 41).

Message: Field is either blank, contains an invalid number, or an out-of-range number has been entered.

Warning (none)

Programming edits: Error check to ensure a valid code is not out of range.

Fatal errors occur when this field contains an invalid number.

Message: An out-of-range number has been entered.

A Fatal Error occurs if this field is blank.

Definition: The count is taken at the district in which the student is enrolled, not necessarily the school where the meal is received. The student need not actually receive a meal on the day this count is taken. Free milk or free/reduced-price meal eligibility is used to calculate awards for federal and state grants by the Michigan Department of Education.

See the following Web site for disclosure information:

For Adequate Yearly Progress, this field currently provides the basis for subgroup identification of economically disadvantaged students.

Beginning in fall 2006, this field will be used to derive eligibility for a district's E-rate discount. Further information regarding E-rate can be obtained at:

http://www.sl.universalservice.org/data/pdf/ERate_Discounts.pdf

and

Code/format: This is a two-position field (NN) with a default code of 01.

         01   Birth order = 1 (Default) **or** the First in a multiple birth
         02   Birth order = 2 or the Second in a multiple birth
         03   Birth order = 3 or the Third in a multiple birth

         08   Birth order = 8 or the Eighth in a multiple birth

Dependencies with other fields: None

Programming edits: Error check to ensure a valid code is not out of range. If the student is one of a multiple birth, be sure each student from this multiple birth has a different (unique) multiple-birth order number.

A fatal error will occur when this field is blank or contains an invalid number.

Warning (none)

Definition: This field is used to indicate that the student is part of a multiple birth **where siblings share all unique identifying characteristics <u>including first and last name</u>**. This field is not intended to identify every case of twins, triplets, etc., in the state. It is only intended to provide some distinguishing data element for cases where the cultural practice is to provide twins (triplets, etc.) of the same gender with the same first name. Each student from such a multiple birth is to have a uniquely different number. We recommend using the birth order of the students. This field will be used by the state to "break ties" if two or more students are identified as being duplicates (i.e., they share **all** unique identifying information), yet it is known by the district that these students are not duplicates but instead part of a multiple birth.

Definition: For a student enrolled in your district who lacks a fixed, regular, and adequate residence, identify his/her most frequent primary nighttime residence.

     1   Homeless shelter. Student sleeps at night in a shelter for homeless people.

     2   Youth shelter. Student sleeps at night in a shelter for runaway/throwaway/homeless youth.

     3   Victim shelter. Student sleeps at night in a shelter for victims of domestic violence.

     4   Doubled-up. Student sleeps at night in the home of a relative or friend if s/he is "doubled-up" because of a loss of housing or other similar situation.

5   Motel/hotel. Student sleeps at night in a motel or welfare hotel.

6   Other location. Student sleeps at night in a car, tent, park, abandoned building, and or other place not ordinarily used as a sleeping accommodation for human beings.

7   Temporary arrangement. Student sleeps at night in a shelter or other temporary arrangement awaiting institutionalization, adoption, foster care, or other placement.

8   Unknown. Student is homeless and sleeps in an unknown location.

Each homeless student's data in the SRSD should reflect any changes in status that have occurred since the previous submission. A student who is reported as homeless in the fall SRSD, for example, who is no longer homeless in the spring, would not be reported as homeless for the spring submission.

Please note that, according to legislation, the homeless student who becomes "housed" during the school year and therefore no longer meets the requirements for "homeless" in the SRSD, remains eligible for all services until the end of the school year. This would include free lunch eligibility.

State of Michigan office contact: MDE/Special Education, Dr. James Nuttall, 517-335-0454 or NuttallJ@michigan.gov

Field specification: Two-character, leading zero

Record position/type: 353-354, integer

Code/format: Category of student as identified on IEP

05	Cognitive Impairment	R340.1705
06	Emotional Impairment	R340.1706
07	Hearing Impairment	R340.1707
08	Visual Impairment	R340.1708
09	Physical Impairment	R340.1709
10	Speech & Language Impairment	R340.1710
11	Early Childhood Developmental Delay	R340.1711
13	Specific Learning Disability	R340.1713
14	Severe Multiple Impairment	R340.1714
15	Autism Spectrum Disorder	R340.1715
16	Traumatic Brain Injury	R340.1716
17	Deaf-Blindness	R340.1717
20	Other Health Impairment	R340.1720

Codes "02, 03, 04, and 19" now constitute fatal errors. Codes "02, 03, and 04" have been replaced by category "05" (Cognitive Impairment). Category "09", formerly Physically & Otherwise Health Impaired, has been broken into either Physical Impairment (code "09") or Other Health Impairment (code "20").

Dependencies with other fields: Field 29: Program Participation; Field 9: Date of Birth; Field 42: Program Service Code; Field 43: Support Service.

Programming edits: Code "11" (Early Childhood Developmental Delay) is used in error if the student's age as of the count date for the current submission (June 30 for end-of-year) is equal to or greater than 8 years of age. Participation in an Early Childhood Special Education Program (Field 42, code "270") does not mean a student has an Early Childhood Developmental Delay label. It is also recommended that districts examine all students from the age of 0 through 2 years of age against code "06" (Emotionally Impaired) and code "13" (Learning Disabled). Such primary disability codes for ages 0 through 2 are highly suspect. If this field contains a value, then either Field 42: Program Service Code or Field 43: Support Services must contain a value.

Fatal errors occur when the field is blank and a number "1" is in the second position of Field 29: Program Eligibility/Participation I, the value is invalid, or the value is out of range. A fatal error occurs if this field contains a single digit either preceded or followed by a blank.

Message: Either Field 29: Program Eligibility/Participation I does not indicate that the student is a special education participant, or Field 36: Primary Disability contains an invalid or out of range code.

Warning: A warning is issued when the student's age is too high for Early Childhood Developmental Delay or too low for EI or LD students.

Warning message: Student's age is too high or too low for this student.

Definition: Primary disability areas are defined in the Michigan Administrative Rules for Special Education. A copy of the rules is available through the following Web site:

http://www.misd.net/SEMGTService/ .

In order for a student to be counted for special education, he or she must have a disability code. Do not confuse primary disability with classroom placement.

Field 37: Additional Disability Characteristics

Submission cycle:	Fall, spring and end of year
Field use:	Individuals with Disabilities Education Act, 20 USC 1400 (PL 105-17 Sec. 618)
State of Michigan office contact:	MDE/Special Education, Dr. James Nuttall, 517-335-0454 or NuttallJ@michigan.gov
Field specification:	Two-character
Record position/type:	355-356, integer
Code/format:	Category of student as identified on IEP 22 Legally Blind 24 Deaf
Dependencies with other fields:	Field 29: Program Participation; Field 36: Primary Disability; Field 44: Primary Educational Setting

Programming edits: If used, the code must be within range.

A warning occurs if Field 37 is reported and Field 36: Primary Disability is blank.

Fatal errors occur when the code is out of range or invalid.

Message: An invalid or out-of-range number has been entered. Note: Field 36: Primary Disability must contain a valid value before data will be accepted in this field.

Definition: These are used to describe additional characteristics relating to the student's primary disability.

22 Legally blind: Legal blindness means visual acuity of 20/200 or less in the better eye with best correction, a limitation of the field of vision not greater than 20 degrees, or a visual acuity of 20/100 in the better eye with a deteriorating condition.

24 Deafness: Deafness means a hearing impairment that is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, which adversely affects a child's educational performance.

Field 38: Date of IEP/Placement/Date of Implementation

Submission cycle:	Fall, spring and end of year
Field use:	Individuals with Disabilities Education Act, 20 USC 1400 (PL 105-17 Sec. 618)
State of Michigan office contact:	MDE/Special Education, Dr. James Nuttall, 517-335-0454 or NuttallJ@michigan.gov
Field specification:	10-character
Record position/type:	357-366, integer with slashes
Code/format:	Month, day, and year (MM/DD/CCYY)

All dates must appear in the following manner: DD must be a number between 01 and 31, and CCYY represents the year. For example, May 8, 1987 = 05/08/1987. Each MM must be one of the following:

01	January	07	July
02	February	08	August
03	March	09	September
04	April	10	October
05	May	11	November
06	June	12	December

Dependencies with other fields: Field 9: Date of Birth; Field 29: Program Participation; Field 36: Primary Disability

Programming edits: Ensure that a date is entered when a code exists in Field 36: Primary Disability. When the IEP date is not a valid date, is out of range, or is blank, a *fatal error* is reported.

Fatal errors occur when the field contains a valid date and Field 36: Primary Disability is blank, contains an invalid date or an out-of-range value, or this field is blank and Field 36: Primary Disability contains a valid value. The date in Field 38 cannot be earlier than the student's date of birth (Field 9: Date of Birth).

Message: An invalid value or out-of-range number has been entered.

Warning: A warning is issued when the Date of IEP is after that in Field 24: Date Exited.

Warning message: An IEP is usually conducted before a student exits the district.

Definition: The date of the student's most recent individual education plan (IEP) or, if a student who currently receives special education programs or services enrolls in a new school, the date the parent consents to placement or implementation of the previous IEP in the new school. An IEP is required by the U.S. Department of Education in order to qualify students for federal funding.

Districts may count students who are temporarily placed under rule 340.1722e (previous enrollment in special education).

If a student who currently receives special education programs or services enrolls in a new school district, and, with the parent's consent, the new district immediately implements the student's current individualized education plan [340.1722e(1)(a)], enter the date of the existing IEP from the prior district.

If a student who currently receives special education programs or services enrolls in a new school district, and, with the parent's consent, the new district immediately places the student in an appropriate program or service and convenes an individualized education plan team meeting within 30 school days to develop an individualized education plan [340.1722e(1)(b)], enter the date the parent consents to place the student into the program or service in the attending district.

If a student who currently receives special education programs or services enrolls in a new school district and the parent does not provide consent for placement, the school district implements the student's current individualized education plan to the extent possible and an IEP team meeting convenes to develop a new individualized education plan [340.1722e(2)], enter the date of the existing IEP from the prior district.

Special Education rules may be accessed at the following Web site:

http://www.misd.net/SEMGTService/ .

An IEP is required by Michigan Special Education rule R340.1721e to determine a student's eligibility for special education. An IEP is also required for counting students under the Individuals with Disabilities Education Act (IDEA).

Common entry errors: Check that the field is filled with the IEP date, the date of placement, or the date of implementation of a previous IEP, not the date of entry.

Field 39a: Parental Consent to Evaluate (formerly Date of Initial/Redetermination IEP)

Submission cycle:	Fall, spring and end of year
Field use:	Revised Adminstrative Rules for Special Education, R340.1722a & R 340.1721c; Individuals with Disabilities Education Act, 20 USC 1400 (PL 108-446). Sec. 614
State of Michigan office contact:	Dr. James Nuttall, 517-335-0454 or NuttallJ@michigan.gov
Field specification:	Two-character with leading zero
Record position/type:	367-368

Code/format:

01   Student was evaluated within 30 School-Day Timeline (R 340.1721c)

Codes below pertain to students who, for one of the reasons listed, were evaluated, however the evaluation did not occur within the 30 School Day Timeline:

02   Child not available to evaluate
03   Child/family moved prior to initial IEP
04   All parties agreed to extend the evaluation period
05   Evaluation personnel unavailable to complete evaluation within the 30 school day timeline

Dependencies with other fields: Field 39b: Result of Initial IEP

Programming edits: If populated, this field must contain a valid code. A fatal error occurs otherwise. If this field is populated with codes 01, 04, or 05, then Field 39b: Result of Initial IEP, requires a value. A fatal error occurs otherwise. If this field contains code 02 or 03, then Field 39b must be left blank. A fatal error occurs otherwise.

Definition: Parental consent to evaluate is defined in Revised Rules for Special Education, R340.1722a & R 340.1721c. After obtaining parental consent to evaluate, the school district has 30 school days to determine the student's eligibility for special education programs and services. If the student is found eligible, complete all other special education fields. This field does not apply to special education student re-evaluations. This field does apply each time a non-special education student is referred for an evaluation for eligibility for special education programs and services. The 30-day timeline referenced in this field applies to students who are three years of age and older.

If, on an initial IEP, the student is found *not eligible* for special education services, or the parents refuse the offered services, leave other special education fields blank. If, on an initial IEP, the student is found eligible <u>and services are accepted</u>, provide the required special education fields.

Definitions of Codes:

01   **Student evaluated within 30 school-day timeline**. After the receipt of parental consent, the district completed the evaluation within the 30 school-day timeline.

02   **Child not available to evaluate.** The district made an attempt to evaluate the child; parents did not make the child available for evaluation during the 30 school day timeline.

03   **Child/family moved prior to initial IEP.** The child moved from the district and was unavailable for the completion of the evaluation.

04   **All parties agreed to extend the evaluation period**. Evaluation was not able to be completed within the 30 school-day timeline. The time for evaluation was extended by agreement between the district and the parent/guardian.

05   **Evaluation personnel unavailable to complete evaluation within the 30 school-day timeline.** School district personnel were not available to complete the evaluation within the 30 school-day timeline.

Parental consent to evaluate is defined as follows:

R 340.1721c Scheduling individualized education plan team meeting; requesting parent participation. Rule 21c. (2) The time from referral or from receipt of parental consent to an initial evaluation to the completion of the individualized education plan or the determination of ineligibility shall not be more than 30 school days. This timeline begins upon receipt of the signed parental consent by the public agency requesting it and may be extended if agreed to by the parent and public agency.

The following message is being posted at the request of the Office of Special Education and Early Intervention Services (OSE-EIS):

The information in Field 39a: Parental Consent to Evaluate and Field 39b: Result of Initial IEP applies only to the current school year. If the student was referred during the current school year, the information is reported in the SRSD for that school year only and should not be reported the next school year.

If a student is referred for an initial evaluation for special education, both Field 39a and Field 39b must be completed. If the student was found eligible, the District should complete the required special education fields. If the student was found ineligible or the parent refused service, the district should not report any other special education information.

If you have questions concerning this information, please contact Dr. James Nuttall (517) 335-0454 or nuttallj@michigan.gov

Field specification: Four-character, with decimal point

Record position/type: 377-380, decimal

Code/format: "0.00" to "1.00" (N.NN) with a default code of "0.00"

Dependencies with other fields: Field 9: Date of Birth; Field 18: General Education FTE; Field 21: Attendance; Field 29: Program Participation; Field 36: Primary Disability; Field 41: Section 53 FTE; Field 42: Program Service Code

Programming edits: Blanks are accepted only if the student is not in special education (Field 29: Program Eligibility/Participation I, second position). If the student is in special education and FTE is less than "0.00", or greater than "1.00", a *fatal error* is reported. The value in this field, when added to the FTE in Field 18: FTE in General Education, cannot exceed "1.00". Check if the student is in a valid program in Field 42: Program Service Code. If he or she does not have a valid program code (Field 42), no membership can be claimed. If FTE is used in this field, it cannot be used in Field 41: FTE in Section 53. Special education must be indicated in the second position of Field 29: Program Participation I when the value in this field exceeds 0.00.

If the value in Field 40 is greater than 0.00, the student's age (Field 9: Date of Birth) must be less than 26 as of September 1 of the current school year.

The value in Field 40 cannot exceed 0.00 when the student is in adult education (Field 29, eighth position).

FTE cannot be claimed in this field if the date in Field 24: Exit Date or Field 46: Special Education Date Exited or Completed is prior to that in Field 123: Date of Count.

FTE cannot be claimed if the entity in Field 5: School or Facility was closed on or before the date in Field 123: Date of Count.

FTE cannot be claimed when the date in Field 20: Enrollment Date is later than that in Field 123: Date of Count.

Fatal errors occur when the field contains a valid value and Field 36: Primary Disability is blank, the value is greater than "1.00" or less than "0.00"; or both Fields 40 and 41 contain valid values greater than zero.

Message: Check for the following: (1) Field 40: FTE in Section 52 (Membership) contains valid data, but Field 36: Primary Disability is blank. (2) FTE in Field 40: FTE in Section 52 (Membership) cannot be greater than "1.00" or less than "0.00". (3) Field 42: Program Service Code (Including Membership) is blank. (4) A value greater than zero has also been reported in Field 41: FTE in Section 53 (Membership).

If this student has zero attendance and yet is being claimed for FTE under the 10/30 day rule, then Field 125: Program Eligibility/Participation II must contain a "1" in the sixth position. A fatal error occurs otherwise. That is, if the first three positions of Field 21: Attendance contain "000", then Field 125: Program Eligibility/Participation II must contain a "1" in the sixth position in order for the FTE in this field to be greater than 0.00.

The text below pertains to situations where the student is receiving services under Section 24 (juvenile detention facility) and no Individualized Educational Plan (IEP) or a Multidisciplinary Evaluation Team (MET) exists for this student.

If code "09" (Section 24 juvenile detention facility) is reported in Field 30: Student Residency (Membership), and the value in this field is greater than 0.00, then Field 42: Program Service Code must be reported. When fields 30, 40 and 42 are reported as defined in the previous sentence, and no other special education fields are reported, Field 29: Program Participation/Eligibility I, second position, must contain "0". If special education fields other than 40 and 42 are reported when Field 30: Student Residency (Membership) contains "09", then Field 29: Program Participation/Eligibility I must equal "1".

Definition: This categorical area represents special education membership. All students who do not qualify as a Section 53 student should be listed as Section 52. Enter the special education Full-Time Equivalency (FTE) in this field. A student's FTE may range from "0.00" to "1.00". (Both tenths or hundredths are allowed as long as the district is consistent in the use of either one.) Special education students are reported whether or not they generate a special education FTE.

Refer to Section 6 of the current State School Aid Act and the Department's Pupil Accounting Manual for FTE instructions. For students in a classroom program only, report the FTE in the Special Education classroom.

Check if the student is in a program in Field 42: Program Service Code (between codes "110" to "194" or "270"). If they do not have a correct program code, no membership can be claimed. If FTE is used in this field, it cannot be used in Field 40: FTE in Section 52.

Fatal errors occur when the field contains a valid value, and Field 36: Primary Disability is blank; or the value is greater than "1.00" or less than "0.00"; or both Field 40: FTE in Section 52 and Field 41: FTE in Section 53 contain valid values greater than zero.

(4) A value greater than zero has also been reported in Field 40: FTE in Section 52 (Membership).

Warning: A warning is issued when this field is blank, and Field 36: Primary Disability contains a valid value.

Warning message: Verify that this student does not generate Section 52 membership FTE.

Definition: This categorical area represents Section 53 membership:

(a) A pupil assigned to a district or intermediate school district through the community placement program of the court or state agency, if the pupil was a resident of another intermediate district at the time the pupil came under the jurisdiction of the court or a state agency.
(b) Pupils who are residents of institutions operated by the Department of Community Health.
(c) Pupils who are former residents of Department of Community Health institutions for the developmentally disabled and are placed in community settings other than the pupils' homes.
(d) Pupils enrolled in a Department-approved, on-grounds educational program longer than 180 days, but not longer than 233 days, at a residential child-care institution, if the child-care institution offered in 1991-92 is an on-grounds educational program longer than 180 days but not longer than 233 days.
(e) A pupil placed in a district by a parent for the purpose of seeking a suitable home, if the parent does not reside in the same intermediate district as the district in which the pupil is placed.

Refer to Section 6 of the current State Aid Act and the Department's Pupil Accounting Manual for FTE instructions.

Programming edits: A student must have at least one program or support service code in Field 43: Support Services if a code exists in Field 36: Primary Disability. If program and support service fields are blank, this is a *fatal error*.

Fatal errors occur when Field 36: Primary Disability contains a valid value, and both Field 42: Program Service Code and Field 43: Support Services are blank. This field must have at least one program code if claiming special education FTE.

Message: Both codes in Field 42: Program Service Code and Field 43: Support Services are blank. A special education student must receive at least one of the listed programs or services.

If code "09" (Section 24 juvenile detention facility) is reported in Field 30: Student Residency (Membership) and Field 40: FTE in Section 52, has a value greater than 0.00, then this field must contain a valid value.

Warning (none)

Definition: *The primary program must be listed first (in the left-most position). This first field becomes the program assignment for State Aid membership.* If a student receives more than three services, specify the three that occur most frequently. It is important to put the primary program service in the initial program services field first and then consecutively fill in the following program service fields. This field reports services used in calculating a student's special education FTE and must have a value for a district to receive state special education reimbursement.

Common entry error: The type of disability is entered rather than the IEP-designated program for the student. A student does not have to have an impairment that matches the program assignment. Do not confuse type of disability with the classroom program. For example, a student does **not** have to be diagnosed as early childhood developmentally delayed to participate in an early childhood special education program.

Fatal errors occur when Field 36: Primary Disability contains a valid value, or when both Field 42: Program Service Code and Field 43: Support Services are blank.

Message: Both codes in Field 42: Program Service Code (including Membership) and Field 43: Support Services are blank. A special education student must receive at least one of the listed programs or services.

Warning (none)

Definition: Support services for special education students are numbered "200" to "493". *The primary service must be listed first.* Be sure to use these codes for special education students. To be counted as a special education service, a service must be part of the evaluation or re-evaluation process or included as services to be delivered as part of the student's IEP. It is important to put the primary service first and then consecutively fill in the following support service fields. If a student receives more than five of the listed services, specify the five that occur most frequently.

200-260	Teacher Consultant Services. See rule R300.1749.
280	Homebound/Hospitalized
290	Speech- and Language-Impaired Instructional Services. See rule R340.1745.
291	Adaptive Physical Education. Instruction in physical education to special education pupils whose disabilities preclude integration into regular physical education classes.
310	School Social Work Services. See rules R340.1011–R340.1018. To be counted as a special service, the social work service must be listed as a service on the student's IEP.
320	School Psychological Services. See rules R340.1151–R340.1158. To be counted as a special education service, school psychological services must be listed as a service on the student's IEP.
360	Occupational Therapy. Occupational therapy deals with improving, developing, or restoring functions impaired or lost through illness, injury, or deprivation; improving ability to perform tasks for independent functioning when functions are impaired or lost; and preventing, through early intervention, initial or further impairment or loss of function.
370	Physical Therapy. Physical therapy is defined in the Michigan Public Health code under Section 17801. Services are provided by a licensed physical therapist.

406   Interpreter for the Deaf. Services provided by a qualified interpreter who assists the hearing impaired student and school personnel with communication.

410   Recreation Services. Recreation services are the assessment of a handicapped student's leisure functioning, providing therapeutic recreation services, participation in a recreation program in a school designed specifically for handicapped students, or providing leisure education.

440   Special Transportation. Special transportation must be provided in an approved school vehicle in a regular seat, wheelchair, or an approved baby seat. This specifically excludes students who need ambulance service, a medical attendant, or other care outside the responsibility of the schools.

450   School Health Services. School health services must be provided by a qualified school nurse or other qualified person. To be counted as a special education service, the school nurse must be working solely with special education students or the service should be indicated in the student's IEP.

460   Rehabilitation Counseling Services. The student receives counseling services provided by a qualified rehabilitation counseling professional. Such services are intended to explore the effect of the student's disability on employment and other post-school activities which include vocational programs funded by Michigan Rehabilitation Services or the Michigan Commission for the Blind.

Programming edits: When the field is left blank or the data is out of range when a Field 36: Primary Disability code exists, a *fatal error* is reported.

Fatal errors occur when this field is left blank and a primary disability code is reported, or the value is out of range. A fatal error occurs if this field contains a single digit either preceded or followed by a blank.

Message: Student must have a primary disability code in Field 36: Primary Disability.

A warning is issued if codes 21 through 28 are reported and the student is not 3, 4, or 5 years of age as of the current count date (June 30 for end-of-year).

A warning is issued if codes 31 through 40 are reported and the student is not 2 years of age or younger as of the current count date (June 30 for end-of-year).

Relationship between Field 44: Primary Educational Setting and Field 56: Primary Setting for Part C. Students eligible for state grants as reported in Field 44, codes 31-40, may or may not be eligible for Early On® federal funds, as reported in Field 56, codes 31-40.

Definition: Field 44: Primary Educational Setting is utilized to report on the least restrictive environment (LRE) settings for children and youth participating in special education. The time spent in a primary educational setting is unrelated to Field 40: FTE in Section 52 and Field 41: FTE in Section 53. Time spent in a primary educational setting is not related to special education membership.

Codes 02 Through 13

Codes 02 through 13 are for students ages 6-26, using their ages as of the count date for the current submission (June 30 for end-of-year).

For purposes of calculating the least restricted environment (LRE), time spent within the general education classroom also includes general/special education team teaching arrangements or time in which special education staff comes into the general education classroom to provide services. The times spent for LRE may be different from the time reflected in Field 40: FTE in Section 52 or Field 41: FTE in Section 53.

02   **Special Education School Building**. Students who receive special education programs and services at least 50 percent of the time at a public school building in which ONLY handicapped students are educated. This would also include students receiving special education services who attend at least 50 percent or more of the time at a private or parochial school meant ONLY for handicapped students. This includes:

- public day schools for students with disabilities; or
- public day schools for students with disabilities for a portion of the school day (greater than 50 percent) and in regular school buildings for the remainder of the school day.

03   **Public Residential Facility**. A public residential facility includes students with disabilities who receive special education programs and live in public residential facilities during the school week. This may include students with disabilities receiving special education and related services for greater than 50 percent of the school day in public residential facilities. This may also include children placed in:

- public residential schools for students with disabilities; or
- public residential schools for students with disabilities for a portion of the day (greater than 50 percent) and in separate day schools or regular school buildings for the remainder of the school day.

The above includes programs operated by the public schools for handicapped students on the grounds of public residential programs for Department of Community Health facilities, Human Services facilities or the Michigan Schools for the Deaf and Blind. *Do not include students who receive educational programs at the facility, but do not live there.*

04   **Private Residential Facility.** This includes students with disabilities receiving special education and related services, at public expense, for greater than 50 percent of the school day in private residential facilities. This may include students placed in:
- private residential schools for students with disabilities; or

- private residential schools for students with disabilities for a portion of the day (greater than 50 percent) and in separate day schools or regular school buildings for the remainder of the school day.

06 **Homebound/Hospitalized.** Students with disabilities who receive special education and related services at home or in a hospital facility because of illness. (Use code 23 for preschool students receiving special education services at home.)

10 **Private Special Education School Building:** Private, separate day-school facilities include children with disabilities receiving special education and related services, at public expense, at a private, separate day-school building. This may include children placed in:
- private day schools just for students with disabilities; or
- private day schools just for students with disabilities for greater than 50 percent of the school day.

11 **Outside general education classroom less than 21 percent of the school day**. Special Education student is placed (pulled) OUTSIDE the general education classroom for less than 21 percent of the school day for special education programs and related services.

12 **Outside general education classroom between 21 percent and 60 percent of the school day**. Special education student is placed (pulled) OUTSIDE the general education classroom for at least 21 percent but no more than 60 percent of the school day for special education programs and services.

13 **Outside general education classroom greater than 60 percent of the school day**. Special education student is placed (pulled) OUTSIDE the general education classroom for more than 60 percent of the school day for special education programs and services.

Home-School Students Served by Special Education

For home-schooled students who receive special education and related services provided by the local educational agency, the number of hours outside the general education classroom is the number of hours the youth spends in separate special education environments (e.g., resource rooms, self-contained special education classrooms, separate schools).

Codes 21 Through 28

Codes 21 through 28 are for children ages 3-5, using their ages on the count date for the current submission (June 30 for end-of-year).

Required for students age 3 but not yet 6 who are in "Early Childhood Settings". This includes children who are 3 years of age on or before the count date, but not yet 6 years of age. Identify the place where the majority (over 50 percent) of a child's program takes place.

21 **Early Childhood Setting.** Students who received ALL (100 percent) of their special education and related services in early childhood educational settings designed primarily for children without disabilities. No special education or related services are provided in

separate special education settings. This may include, but is not limited to, special education and related services provided in:

- Regular kindergarten classes;
- Public school preschool/prekindergarten programs (i.e., Head Start, Michigan School Readiness Programs, Title I preschool programs, community education preschool programs); (also see Field 52: Early Childhood Enrollment)
- Private preschool programs (i.e., Head Start, Michigan School Readiness Programs, programs offered by private and faith-based providers);
- Programs offered in child-care facilities, including both centers and family child-care and group family child-care homes;
- Home/early childhood combinations; and
- Other combinations of early childhood settings.
    Example: The child attends a preschool program designed for typically developing children where he receives special education services, such as speech therapy and/or teacher consultant services. The child does not attend a special education classroom program.

22   **Early Childhood Special Education Setting**. Students who received all of their special education and related services in educational programs designed primarily for children with disabilities housed in regular school buildings or other community-based settings. No special education or related services are provided in early childhood education settings. This may include, but is not limited to, special education and related services provided in:
- Special education classrooms in regular school buildings;
- Special education classrooms in child-care facilities, hospital facilities on an outpatient basis, or other community-based settings;
- Special education classrooms in trailers or portables outside regular school buildings.
    Example: The child attends an Early Childhood Special Education Program housed in an elementary school building.

23   **Home**. Students receive their special education and related services in the principal residences of the children's families or caregivers.

24   **Part-Time Early Childhood/Part-Time Early Childhood Special Education Setting.** Students who received special education and related services in multiple settings including special education and related services provided in: (1) the home, (2) educational programs designed primarily for children without disabilities, (3) programs designed primarily for children with disabilities, (4) residential facilities, and (5) separate schools. This may include, but is not limited to, special education and related services provided in:

- Home/early childhood special education combinations;
- Head Start, child-care, nursery school facilities or other community-based settings and outside of the general education class combinations;

- Regular kindergarten classes and outside of the general education class combinations;
- Separate school/early childhood combinations;
- Residential facility/early childhood combinations.

25 **Residential Facility.** Students who received all of their special education and related services in publicly or privately operated residential schools or residential medical facilities on an inpatient basis.

26 **Separate School.** Students who received all of their special education and related services in educational programs in public or private day schools specifically for children with disabilities.

27 **Itinerant Service Outside the Home.** Students who received all of their special education and related services at schools, hospital facilities on an outpatient basis, or other locations for a short period of time (i.e., no more than 3 hours per week). This does not include children receiving services at home. These services may be provided individually or to a small group of children. This may include, but is not limited to, speech instruction up to 3 hours per week in a school, hospital, or other community-based setting.

28 **Reverse Mainstream Setting.** Students who received all of their special education and related services in educational programs designed primarily for children with disabilities but that included 50 percent or more children without disabilities.

Codes 31 Through 40

Codes 31 through 40 are for children ages 0-2, using their ages on the count date for the current submission (June 30 for end-of-year).

Required for students from birth but not yet 3 years of age. This includes children from birth but not yet 3 years of age on or before the count date. Identify the place where the majority (over 50 percent) of a child's program takes place. Children are to be counted according to the type of program being received at a location, not the type of location. For example, children in a program designed for children with developmental delays or disabilities operated at a hospital should be counted under "program designed for children with developmental delays or disabilities" (code 35). Children who receive physical therapy at a hospital or on an outpatient basis should be counted under service provider location (code 34). Children who are patients in a hospital should be counted under "hospital" (code 36).

31 **Home**. Services are provided in the principal residence of the child's family or caregivers.

33 **Program Designed for Typically Developing Children.** Services are provided in a program regularly attended by a group of children. Most of the children in this setting do not have disabilities. For example, this includes children served in regular nursery schools and child-care centers.

34　　**Service Provider Location**. Services are provided at an office, clinic, or hospital where the infant or toddler comes for short periods of time (e.g., 45 minutes) to receive services. These services may be delivered individually or to a small group of children.

35　　**Program Designed for Children with Developmental Delays or Disabilities.** This setting refers to an organized program of at least one hour in duration, provided on a regular basis. The program is usually directed toward the facilitation of one or more developmental areas. Examples include early intervention classrooms/centers and developmental child-care programs.

36　　**Hospital (inpatient).** Hospital refers to a residential medical facility. Child must be receiving services on an inpatient basis.

37　　**Residential Facility.** Residential facility refers to a treatment facility which is not primarily medical in nature, where the infant or toddler currently resides.

38　　**Other Setting**. Any service setting not included in the settings or programs listed above. For example, if the only component of the infant's early intervention services is parent counseling during which the child is not present, and the child receives no direct service, count as "other".

39　　**Home and program designed for typically developing children.** Services are provided in the principal residence of the child's family or caregiver or family daycare AND is in a facility regularly attended by a group of typically developing children (i.e., the child is being served at home and in a child-care center).

40　　**Home and program designed for children with developmental delays or disabilities.** Services are provided in the principal residence of the child's family or caregiver or family daycare AND in an organized program usually directed towards the facilitation of one or more developmental areas. Attendance must be at least one hour in duration and provided on a regular basis.

Special circumstances to consider for Codes 31-40:

If a child is receiving services in more than one setting, count the child in the setting in which he or she receives the most hours of early intervention service, *i.e., the primary setting*. For example, a toddler who receives one hour of home-based service a month and four hours of service per month in a clinic (a service provider location) would be counted under the category "service provider location."

If services are delivered to a child and family members, count the child only under the primary setting (as defined above) in which the child is being served.

If services are delivered only to family members, i.e., no services are delivered to a child, count the child as "Other" (code 38).

Field specification: Two-character

Record position/type: 411-412, integer

Code/format: This is a two-position field that indicates the student with disabilities
                               left the setting or program (NN).

                               22   Student exits special education <u>and returns to general

Dependencies with other fields: Field 29: Program Participation; Field 46: Special Education Date
                               Exited or Completed

Programming edits: If an exit reason is used, a valid date must occur in Field 46: Date Exited or
Completed. The code must not be out of range.

Fatal errors occur when this field is left blank and a valid date appears in Field 46: Special Education
Date Exited or Completed. A fatal error occurs if this field contains a single digit either preceded or
followed by a blank.

~~If code "22" is reported in this field, the value in Field 23: District Exit Status must equal "19".~~ If this
field contains a valid code, a date must be contained in Field 46: Date Exited or Completed. If code "28"
is reported in this field, Field 23: District Exit Status must contain a code other than "19". If this field
contains a valid code, the second position of Field 29: Program Eligibility/Participation I must contain a
"1" (the Office of Special Education and Early Intervention services requires all special education fields
be completed for exiting students – this allows tracking of programs and services at the time the student
exited).

If code "22" or "28" is reported, no special education FTE (Field 40: FTE in Section 52 and Field 41: FTE
in Section 53) may be reported. A fatal error will occur otherwise.

Message: Field 46: Special Education Date Exited or Completed contains a valid date and this field is
blank.

Warning (none)

Definition: The reason the student is no longer in special education since the last submission.

22   Student exits special education <u>and returns to general education</u> ~~but remains in the district~~. The student no longer has an IEP and is no longer receiving special education services. The student is continuing to receive other services from the district.

28   Student exits special education and exits the district. The student has left the district and exited the special education program in the former district. It is possible this student may remain in special education in the new district.

Fields 47a - 47d and Field 48 Instructions on Special Education Disciplinary Action fields

The counts collected in these five fields, Fields 47a – 47d and Field 48, will be reported to the Office of Special Education Programs (OSEP) using Table 5 of the reporting documents required under Section 618 of the Individuals with Disabilities Education Act (IDEA). The counts and appropriate rankings will also be added to the Special Education Data Portraits.

The five fields, 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer, 47b: Special Education Disciplinary Action: Number of Unilateral Removals (Year-To-Date) Following a Weapons Offense**,** 47c: Special Education Disciplinary Action: Number of Unilateral Removals (Year-To-Date) Following a Drug Offense, 47d: Special Education Disciplinary Action: Number of Individual Out-Of-School Suspensions (Year-To-Date) Greater than 10 Days, and Field 48: Special Education Disciplinary Action: Multiple Short-Term Out-Of-School Suspensions Accumulating to More than 10 Days (Year-To-Date), correspond to the five Method of Removal types in the former SRSD Field 49. For the federal table, only an *incident* count is required (not a count of *days*).

A zero or blank indicates that no removal or suspension incidents of that type occurred for the student. For Fields 47a through 47d, a "9" will be interpreted as "9 or more occurrences." The dependencies with other special education fields will only be invoked if a valid non-zero integer is recorded.

A single offense can only be counted once in the five fields 47a - 47d, or Field 48.

For offenses in Fields 47a, b, c, or d (the hearing officer, weapons, drugs, or long-term suspension categories), use the beginning date of the actual removal or suspension to determine the SRSD collection period for which the incident should be reported. For example, suppose a weapons offense incident occurred prior to the fall count date (fourth Wednesday in September) but that the 25-day removal for this incident actually began *after* the fall count date. For the fall count, this student would be reported with a zero (0) in Field 47b. For the spring and end-of-year counts, assuming no further suspensions, the student would be reported with a one (1) in Field 47b.

For Field 48: Special Education Disciplinary Action: Multiple Short Term Out-Of-School Suspensions Accumulating to More Than 10 Days (Year-to-Date), report a "1" for the SRSD collection period in which the 11th day of accumulated suspensions actually falls. For example, suppose a student has a five-day suspension in September, then a three-day suspension in December, for a total of eight days. An additional five-day suspension then begins on the day prior to the spring SRSD count date. However, in this scenario, the 11th day actually falls one day *after* the spring count date, in the end-of-year count. So, Field 48 is reported with a "0" for the spring submission while the end-of-year submission reports Field 48 with a "1".

If a student exits special education prior to the end of the school year, then include only those incidents that occur while the student is in special education. If the student moves to another district or begins attending another district while on suspension from your district, count the incident in the appropriate category.

If a removal or suspension occurs after the end of the school year, then report the incident in the subsequent fall submission.

Year-to-date is defined as starting on the first official day of school and lasting to the appropriate current count date. *School year* is defined as starting on the first official day of school and lasting to the last official day of school. For the end-of-year submission, *school year* is the same as *year-to-date*.

Example

Fall count date: September 24
Spring count date: February 11

The student receives three disciplinary removals for the school year as follows and all three fall within the same category (Field 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer).

	Beginning Date of Removal	Number of Days Removed
Removal #1	September 10	12
Removal #2	October 12	15
Removal #3	February 5	11

Since the *beginning date* of Removal #1 fell prior to the fall count date (September 24), Field 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer would be reported with a "1" for the fall submission. For the spring submission, since the beginning dates for the subsequent two removals both fell prior to the spring count date (February 11), Field 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer would report the cumulative number of removals year-to-date, which is now "3". Assuming no further removals, the reported count for Field 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer for the end-of-year submission would simply be a carry-over of the spring count, or "3".

Relationship to Expulsion Fields 112-120

If completing one of the special education disciplinary infraction fields (Fields 47a – d), there is no longer a requirement to also complete Fields 112 through 120 *unless* the student has been officially expelled from the school district (that is, disciplinary procedures relevant to students without disabilities have been deemed appropriate and applied in this case).

Removal by a Hearing Officer
These are instances in which an impartial hearing officer orders the removal of a child with disabilities from his/her current educational placement to an appropriate alternative educational setting for not more than 45 days, based on the hearing officer's determination that the public agency has demonstrated by substantial evidence that maintaining the child's current placement is substantially likely to result in injury to the child or others.

Definition: Specify the number of times, year-to-date, that the student was removed by school personnel to an interim alternative educational setting following a weapons offense. "9" is interpreted as "9 or more."

Unilateral Removal – A Weapons Offense
These are instances in which school personnel (not the IEP team) order the removal of children with disabilities from their current educational placements to appropriate interim alternative educational settings for not more than 45 days, where the incidents involve weapons. The IEP team is responsible for determining the interim alternative educational placement. Unilateral removals do NOT include decisions by the IEP team to change a student's placement.

Unilateral Removal – A Drug Offense
These are instances in which school personnel (not the IEP team) order the removal of children with disabilities from their current educational placements to appropriate interim alternative educational settings for not more than 45 days, where the incidents involve the use, possession, sale, or solicitation of drugs. These incidents do not include alcohol or tobacco. The IEP team is responsible for determining the interim alternative educational placement. Unilateral removals do NOT include decisions by the IEP team to change a student's placement.

Dependencies with other fields:	Field 36: Primary Disability; Field 38: Date of IEP/ Placement/Date of Implementation; Field 29: Program Eligibility/Participation I.

Programming edits: If a valid non-zero integer occurs in this field, then Field 36: Primary Disability and Field 38: Date of IEP/Placement/Date of Implementation must contain valid data and Field 29: Program Eligibility/Participation I, second position, must contain "1". A fatal error occurs otherwise.

Definition: Specify the number of separate times, year-to-date, that the student was subject to a single, long-term, out-of-school suspension for more than 10 days. "9" is interpreted as "9 or more."

Long-term suspension greater than 10 days
These are instances in which the student was subject to a single long-term, out-of-school suspension for more than 10 days. Include only out-of-school suspensions. A student can have multiple long-term suspensions.

Field 48: Special Education Disciplinary Action: Multiple Short-Term Out-Of-School Suspensions Accumulating to More than 10 Days (Year-To-Date)

Submission cycle:	Fall, spring and end of year
Field use:	Individuals with Disabilities Education Act, 20 USC 1400 (PL 105-17 Sec. 615k)
State of Michigan office contact:	MDE/Office of Special Education and Early Intervention Services, Dr. James Nuttall, 517-335-0454 or NuttallJ@michigan.gov

Definition: Record a "1" if the student was subject to multiple (10 days or less) out-of-school suspensions that together accumulate to a total of more than 10 days.

Multiple short-term out-of-school suspensions:
These are cases in which the student was subject to multiple short-term out-of-school suspensions summing to more than 10 days. Each suspension must be less than or equal to 10 days, otherwise it would be reported in Field 47d: Special Education Disciplinary Action: Number of Individual Out-Of-School Suspensions (Year-To-Date) Greater than 10 Days. Multiple short-term out-of-school suspensions are accumulated and summed for the entire school year. A student can only be counted once in this category, even if additional out-of-school suspensions occur, so the value of Field 48 can only be zero (0) or one (1). An out-of-school suspension for any part of a day is calculated as a full-day suspension.

Field specification: Three-character, leading zero

Record position/type: 441-443, integer

Code/format: This is a three-position field (NNN) that indicates why the child left the early childhood program. If the child was in an early childhood setting in a prior submission and has transferred to another early childhood program for the current submission, report the new program in Field 52: Early Childhood Enrollment and either code "064" or "065" in Field 53. Because this is a three-character field, the codes should have a leading zero, as follows:

063	Normal program completion
064	Parent-initiated transfer to another early childhood program before completion of the current program
065	Program-initiated transfer to an early childhood program before completion of the current program
066	Child's behavior does not match program expectations
067	Parent decision to withdraw child
068	Child deceased

Dependencies with other fields: Field 52: Early Childhood Enrollment

Programming edits: A fatal error occurs if a valid value is reported in Field 53: Early Childhood Exit/Completion Reason and Field 52: Early Childhood Enrollment is not reported.

Definition: Primary reason why the child left or completed the early childhood program or service.

063   Used for a child who enrolled and completed regularly scheduled or prescribed program.

064   Parent makes a request to transfer out of one early childhood program and into another early childhood program; e.g., from Head Start to a Michigan School Readiness Program, Early Childhood Special Education, etc. This request results in the child making a transfer prior to completion of the original program.

065   Program staff makes a referral to another early childhood program which results in parental consent to transfer the child from the current program into a different early childhood program.

066   Program staff is not able to accommodate a child with extreme behaviors that may result in injury to other children and staff, and/or make program management impossible.

067   Parent withdraws child for any reason. This would include families moving out of the district.

068   Child has died.

NOTE: An exit code in Field 23: District Exit Status is also required if the child has exited the district and is not expected to continue.

Definition: The primary setting in which a child between the ages of birth through 2 years is receiving services. *The child is counted according to the type of program being received at a location, not the type of location.*

    31   Home. Services are provided in the principal residence of the child's family or caregivers or family day care.

    33   Program Designed for Typically Developing Children. Services are provided in a facility regularly attended by a group of children (regular nursery school, preschool,

or day care). Most of the children in this setting do not have disabilities. For example, the child is being served in a child-care center.

34   Service Provider Location (outpatient). The child receives services at a center, clinic, or hospital where the infant or toddler comes for short periods of time (e.g., 45 minutes). These services may be delivered individually or to a small group of children.

35   Program Designed for Children with Developmental Delays or Disabilities. The child is in an organized program of at least one hour in duration provided on a regular basis. The program is usually directed toward the facilitation of one or more developmental areas. Examples include early intervention classrooms/centers and developmental child-care programs.

36   Hospital (inpatient). The child is in a hospital or a residential medical facility. The child must be receiving services on an inpatient basis.

37   Residential Facility. The child is in a residential treatment facility that is not primarily medical in nature, where the infant or toddler currently resides in order to receive early intervention services.

38   Other Setting. The child is receiving a service not included in the settings or programs listed above. For example, if the only component of the infant's early intervention services is parent counseling during which the child is not present, and the child receives no direct service, count as "other."

39   Home and program designed for typically developing children. Services are provided in the principal residence of the child's family or caregiver or family daycare AND in a facility regularly attended by a group of typically developing children (i.e., the child is being served at home and in a child-care center).

40   Home and program designed for children with developmental delays or disabilities. Services are provided in the principal residence of the child's family or caregiver or family daycare AND in an organized program usually directed towards the facilitation of one or more developmental areas. Attendance must be at least one hour in duration and provided on a regular basis.

Definition: The primary type of English language acquisition program in which the student is currently enrolled.

         05 Bilingual Dual-Language Instruction. Also known as two-way or developmental, the goal of these bilingual programs is for students to develop language proficiency in two languages by receiving instruction in English and another language in a classroom that is usually composed of half native English speakers and half native speakers of the other language.

06 Bilingual Two-Way Immersion. Bilingual two-way immersion is a program in which a second language (English) is used along with the student's first language for curriculum instruction during some part of elementary or secondary schooling. The goal of two-way immersion programs is functional competence in both languages.

07 Transitional Bilingual Instruction. This program, also known as early-exit bilingual education, utilizes a student's primary language instruction. The program maintains and develops skills in the primary language and culture while introducing, maintaining, and developing skills in English. The primary purpose of a TBI program is to facilitate the English language learner (ELL) student's transition to an all-English instructional program while receiving academic subject instruction in the native language to the extent necessary.

08 Bilingual Heritage Language Instruction. An instructional program that aims to develop fully bilingual and bi-literate students by conducting core curriculum classes in English and in the student's home language.

09 English as a Second Language (ESL) Instruction. A program of techniques, methodology, and special curriculum designed to teach English language learner (ELL) students English language skills, which may include listening, speaking, reading, writing, study skills, content vocabulary, and cultural orientation. ESL instruction is usually in English with little use of the native language.

10 Sheltered ESL Instruction. An instructional approach used to make academic instruction in English understandable to English language learner (ELL) students. In the sheltered classroom, teachers use physical activities, visual aids, and the environment to teach vocabulary for concept development in mathematics, science, social studies, and other subjects.

11 Structured English Immersion. The goal of this program is acquisition of English language skills so that the English language learner (ELL) student can succeed in an English-only mainstream classroom.

12 Content-based English as a second language. This approach makes use of instructional materials, learning tasks, and classroom techniques from academic content areas as the vehicle for developing language, content, cognitive and study skills. English is used as the medium of instruction.

13 Newcomer Program. Newcomer programs are separate, relatively self-contained educational interventions designed to meet the academic and transitional needs of newly arrived immigrants. Typically, students attend these programs before they enter more traditional interventions (e.g., English language development programs, or mainstream classrooms with supplemental ESL instruction).

14 Other Program. Student participates in an LEP program other than one described above.

15 The student is determined to be eligible for LEP services and services have been refused.

16 No LEP Services are offered by the district. NOTE: Under Title VI of the Civil Rights Act of 1964, which prohibits discrimination based on race, color, or national origin, a school district is required by law to take steps to help LEP/ELL students overcome language barriers and to ensure that they can participate meaningfully in the districts' educational programs. A complete discussion of the law and guidance is available at:

Ethnic List of Countries and Languages

The following countries and languages are provided to assist the district in selecting the "countries of origin" and the "primary languages" for students who are not native English speakers. This guide is not definitive. The information in it is based on the *2001 World Almanac and Book of Facts,* World Almanac Books, Mahwah, New Jersey, 2001, and *Ethnologue: Languages of the World 14th edition,* B. Grimes ed., SIL International, Dallas, Texas, 2000. More than 6,800 languages and dialects are referenced in the *Ethnologue,* and it is not possible to list them all here. In addition, political boundaries and countries undergo continuous changes.

Items in parentheses under **Language** indicate alternate names for a language or the country's official language. If a language is not listed, consult the online Ethnologue (www.sil.org/ethnologue) or contact the Office of Field Services at (517) 373-6066 for assistance. Use of parentheses or other non-alpha characters will cause a *fatal error.*

Definition: Indicate the participant's program and FTE level(s). The first digit identifies the program of the participant. The next four digits are the FTE that the participant spends in each program area. A participant's FTE may be proportionally reported under a maximum of three of any of the program categories. For example, a participant in an adult basic education program "1" with "0.60" FTE would be coded as "10.60". The eligible student is participating in one of the following adult education programs:

    Adult Basic Education (ABE) eligibility. The participant must be 20 years of age or older by September 1 and must not hold a high school diploma or general education development certificate.

The participant is determined, by appropriate assessment, to be below ninth-grade level in reading, mathematics, or both, or to lack basic English proficiency. The participant must be tested prior to enrollment and after each 90 hours of attendance with a Michigan Department of Education-approved test.

Such a participant may be counted until the participant is at or above ninth-grade level in reading and mathematics, or until the individual fails to progress on two successive assessments after having completed 450 hours of instruction.

English as a Second Language (ESL) eligibility. The participant is determined, by appropriate assessment, to lack basic English proficiency. The participant must be tested prior to enrollment and after each 90 hours of attendance with a Department-approved test. A person with a GED or a high school diploma can be enrolled in ESL as a participant at any age.

Such a participant may be counted until the individual tests as having basic English proficiency or until the individual fails to show progress on two successive assessments after having completed 450 hours of instruction.

General Education Development Preparation (GED Prep) eligibility. The participant must be 20 years of age or older by September 1, and must not hold a high school diploma or a GED certificate. The participant must be tested every 90 hours of attendance.

Such a participant may be counted until the individual passes the general education development exam or until the individual fails to show progress in two successive tests used to determine readiness to take the GED exam after having completed 450 hours of instruction.

High School Completion (HSC) eligibility. The participant must not already hold a high school diploma. The individual must be 20 years of age by September 1. Participants 18 and older with a GED may be enrolled.

Such a participant may be counted until s/he earns a high school diploma or until the participant fails to earn credit for two successive semesters or terms in which the participant is enrolled after having completed 900 hours of instruction.

Job or Employment Training Referred by Employer eligibility. The participant must be less than 20 years of age on September 1, must hold a high school diploma or GED certificate, must not be attending an institute of higher education and must be referred by his/her employer.

The participant must be in need of remedial mathematics and/or communication art skills and must be assessed every 90 hours of attendance by an appropriate assessment instrument.

Such a participant may be counted until the participant achieves the requisite skills as determined by appropriate assessment instruments or until the participant fails to show progress on two successive assessments after having completed 450 hours of instruction.

Michigan Career and Technical Institute (MCTI). The participant is less than 20 years of age as of September 1 and is enrolled in the Michigan Career and Technical Institute (MCTI).

Participants permanently expelled under School Code Act 380.1311 or 380.1311a. Effective July 25, 2002, under Public Act 521, a school district may enroll 16- to 19-year-olds in the adult education program, and count them as participants, if the district can show that these individuals were expelled under the State Mandated Expulsion (Revised School Code 380.1311 or 380.1311a) and there is no alternative education program available to these individuals. The individual must be at least 16 years of age but less than 20 on September 1 of the current school year. The individual must not hold a GED certificate or a high school diploma.

Programming edits: If the value in Field 100 is less than "0.00", or greater than "1.00", or when the one-digit program code is out of range (including "0") without an FTE, a *fatal error* is reported.

Fatal errors occur when the field contains values less than "0.00" or greater than "1.00"; or the field is blank, Field 29: Program Eligibility/Participation I has a valid value in the eighth position, and the count cycle is fall.

Warning (none)

Definition: Indicate the participant's program and FTE level(s). The first digit identifies the program of the participant. The next four digits are the FTE that the participant spends in each program area. A pupil's FTE may be proportionally reported under a maximum of three of any of the program categories. For example, a participant in an adult basic education program ("1") with "0.60" FTE would be coded as "10.60". The eligible student is participating in one of the following adult education programs:

Adult Basic Education (ABE) eligibility. The participant must be 20 years of age or older by September 1 and must not hold a high school diploma or general education development certificate.

The participant is determined, by appropriate assessment, to be below ninth-grade level in reading, mathematics, or both, or lack of basic English proficiency. The participant must be tested prior to enrollment and after each 90 hours of attendance with a Michigan Department of Education-approved test.

Such a participant may be counted until the participant is at or above ninth grade level in reading and mathematics, or until the individual fails to progress on two successive assessments after having completed 450 hours of instruction.

English as a Second Language (ESL) eligibility. The participant is determined, by appropriate assessment, to lack basic English proficiency. The participant must be tested prior to enrollment and after each 90 hours of attendance with a Department-approved test. A person with a GED or a high school diploma can be enrolled in ESL as a participant at any age.

Such a participant may be counted until the individual tests as having basic English proficiency or until the individual fails to show progress on two successive assessments after having completed 450 hours of instruction.

General Education Development Preparation (GED Prep) eligibility. The participant must be 20 years of age or older by September 1, and must not hold a high school diploma or a GED certificate. The participant must be tested every 90 hours of attendance.

Such a participant may be counted until the individual passes the general education development exam or until the individual fails to show progress in two successive tests used to determine readiness to take the GED exam after having completed 450 hours of instruction.

High School Completion (HSC) eligibility. The participant must not already hold a high school diploma. The individual must be 20 years of age by September 1. Participants 18 and older with a GED may be enrolled.

Such a participant may be counted until s/he earns a high school diploma or until the participant fails to earn credit for two successive semesters or terms in which the participant is enrolled after having completed 900 hours of instruction.

Job or Employment Training Referred by Employer eligibility. The participant must be less than 20 years of age on September 1, must hold a high school diploma or GED certificate, must not be attending an institute of higher education and must be referred by his/her employer.

The participant must be in need of remedial mathematics and/or communication art skills and must be assessed every 90 hours of attendance by an appropriate assessment instrument.

Such a participant may be counted until the participant achieves the requisite skills as determined by appropriate assessment instruments or until the participant fails to show progress on two successive assessments after having completed 450 hours of instruction.

Michigan Career and Technical Institute (MCTI). The participant is less than 20 years of age as of September 1 and is enrolled in the Michigan Career and Technical Institute (MCTI).

Participants permanently expelled under School Code Act 380.1311 or 380.1311a. Effective July 25, 2002, under Public Act 521, a school district may enroll 16- to 19-year-olds in the adult education program, and count them as participants, if the district can show that these individuals were expelled under the State Mandated Expulsion (Revised School Code 380.1311 or 380.1311a) and there is no alternative education program available to these individuals. The individual must be at least 16 years of age but less than 20 on September 1 of the current school year. The individual must not hold a GED certificate or a high school diploma.

Structure for Student Expulsion

Definition of Expulsion for Purposes of SRSD Reporting: Expulsion of students from the school district refers to students who have been officially removed by board action from the formal educational setting because of any of the codes listed in Field 115: Incident Type. This would include students placed in an alternative educational setting, for example, as well as those for whom the district continues to provide education services within the home. Such placements are reported in Field 120: Follow-Up After Expulsion.

Expulsion and Exit Codes: Students who are expelled from education in the school district and continue to receive services from the district are not reported as having exited the district. Students who continue to receive services are reported in Field 23: District Exit Status as code "19" (expected to continue in the same school district). Field 24: Exit Date would remain blank. This situation will require that Field 120: Follow-up after Expulsion contain code "3" (placed in alternative school) or code "7" (instructional services in the home).

If completing the special education disciplinary infraction fields (Fields 47a – d or 48), there is no longer a requirement to also complete Fields 112 through 120. This is true unless the student has been officially expelled from the school district; that is, disciplinary procedures relevant to students without disabilities have been deemed appropriate and applied in this case.

Field 112: Date Incident Occurred

Common entry errors: The entry of the current date instead of the date the incident occurred.

Note: See programming edits for Field 120: Follow-up after Explusion, for reporting expelled students who have since re-enrolled in the district.

Definition: The date the school board, its designee or hearing officer took action to expel the student from the district. For students with disabilities, expulsion also means an exclusion for more than 10 days (long-term suspension) or for multiple short-term suspensions summing to more than 10 days from his or her educational program, class, transportation, or any aspect of programs or services identified in a student's IEP.

Fatal errors occur when an invalid date is in the field.

Message: Check to ensure that the date is not out of range, missing, or not a valid date.

Definition: Use the count date (fourth Wednesday in September, second Wednesday in February). For end-of-year, use "06/30/2006".

Note: although 06/30 is the month and date that populates Field 123, when extracting students for the end-of-year SRSD submission, local student management systems should be set to include students who may have enrolled after the spring submission, were present on the last day of the current academic year, and were exited from the district afterward. For example, this would include a student who enrolled as a senior after the spring count and then graduated from the district at the end of the current academic year.
